BACKGROUND:

All bridges on Marco Island are inspected annually to insure operational adequacy, safety and serviceability for public use.

Based on surveys conducted by FDOT and Jenkins & Charland, eight bridges were identified as requiring repairs because of damages and deterioration caused by Hurricane Wilma and age.

Three bridges are scheduled for repair in FY 07. They are:

Bridge 030207-N. Collier Blvd over Clam Bay, constructed in 1979

Bridge 034126-Sandhill Ct. over a tidal canal, constructed in 1986

Bridge 034127-South Seas Ct. over a tidal canal, constructed in 1986

Competitive bids were advertised and then received on June 20, 2007

Two contractors submitted bids as follows:

Anzac Contractors	\$ 28,844	\$ 204,450	\$ 297,963	\$ 531,257	\$ 523,257

Staff recommends the contract be awarded to the contractor who submitted the lowest total bid for all three bridge repairs, Anzac Contractors.
