**FLOOD ELEVATION CERTIFICATE GENERAL NOTES TO  
BE ADDED UNDER SECTION "D", COMMENTS**

1. The determination of the date of construction or dates of substantial improvements or damages is not considered to be within the scope of services included in the preparation of this elevation certificate. Therefore, the Pre-FIRM, Post-FIRM or Grandfathered issues may be applicable and should be determined by others.
2. In the event photographs have not been included with this certificate, this certificate may NOT be used for the purpose of rating a flood insurance policy, per current National Flood Insurance regulations. Photographs may NOT be included with this certificate without the written consent of the professional certifying Section "C" of this certificate.
3. The certification in Section "D" does not address or certify that the building meets the National Flood Insurance Program's Free-Of-Obstruction Requirements. An inspection by building official, insurance agent, or others may reveal obstructions below the lowest horizontal structural member.
4. I am unsure of the correct building diagram. I have selected the diagram that in my opinion most closely resembles the building being certified. It is the responsibility of the reviewer of this certificate to inspect the property and concur or give notice to the preparer of the certificate upon non-concurrence regarding the diagram selection.
5. Elevations shown hereon are NGVD (National Geodetic Vertical Datum) unless stated otherwise.
6. The preparer of this certificate is not able to verify the type of foundation.
7. This certificate is NOT to be used for any future construction or design under any conditions unless stated otherwise in writing by the preparer.
8. The intent of this certificate is for the sole purpose of rating a flood insurance policy.
