Be advised that significant portions of the City of Marco Island are subject to deed restrictions. It is incumbent upon the property owner to research deed restrictions that may be applicable to their property. Questions regarding deed restrictions should be directed to the Marco Island Civic Association (MICA) at (239) 642-7778.

Regulations and Information

1. City of Marco Island Building Services is regulated by the Florida Building Code 8th Edition (2023). For more information about the code or to purchase the code visit <http://www.floridabuilding.org>
2. Visit www.cityofmarcoisland.com/CSS for more information about how to submit for permit.
3. All boat docking facilities are subject to, and shall comply with, all federal and state requirements and permits, including but not limited to the requirements and permits of the state Department of Environmental Protection, the U.S. Army Corps of Engineers, and the U.S. Environmental Protection Agency. If state or federal permission is required for the construction, installation, modification or replacement of any boat docking facility, such permission shall be presented in writing to the community development director or his designees prior to the issuance of any building permit for a boat docking facility.
4. If electrical work is needed for dock installation (e.g., for a boatlift, lights, or electrical outlets) then a licensed electrical contractor, sub-contracted to the dock/marine contractor must perform the electrical work.
5. If plumbing work is required on a dock or marine project (hose bibbs), then a licensed plumbing contractor must be sub-contracted to the dock/marine contractor.
6. Check with the respective property owners association for deed restrictions.
7. Staging activity may not occur on any residential vacant lot. Staging activity shall only occur at the owners' property where the work is being performed or at a commercial boat yard.
8. Commercial/ Multifamily docks and piers require a standpipe as per NFPA 303.
9. One application must be filled out with the original signature of the qualifier pulling the permit.
10. Sub-contractor forms must be submitted for electric and plumbing work.
11. A framing inspection is required, to verify that the fasteners are adequate and that sound engineering practices are being followed. There shall be no splicing of unsupported framing without signed, sealed, and dated engineering, detailing the repair (nailing pattern and size of mend plate).
12. A final survey must be submitted and approved prior to issuance of Certificate of Completion.
13. The fee for dock work is \$0.25 per square foot of the gross square footage of the structure, \$120.00 minimum fee.
14. The fee for each boatlift permit shall be \$84.00.
15. Electric and plumbing work is charged at the normal rate of \$0.25 per square foot for new construction, or \$0.20 for alteration work, with a minimum fee of \$77.00.
16. A plan review fee of 38% of the permit fee will be charged at the time of application. This fee is not refundable nor is it credited to any other fee.
17. The Electronic Data Conversion Surcharge, added to all permits, will equal 5% of the total permit cost, with a minimum charge of \$5.00 and a maximum charge of \$300.00. The fee will be capped at \$100.00 if an electronic copy of the permit documents is also submitted.
