## **CITY OF MARCO ISLAND RECOGNIZED FOR EXCELLENCE IN PROCUREMENT**

(August 15, 2022) The City of Marco Island has been awarded the Achievement of Excellence in Procurement for 2022 from the National Procurement Institute. This award is earned by public and non-profit agencies that demonstrate a commitment to procurement excellence. This annual program recognizes procurement organizations that embrace innovation, professionalism, productivity, leadership, and electronic procurement. This is the second time the City of Marco Island has earned this prestigious award.

The Achievement of Excellence in Procurement Award was established in 1995 and recognizes cities, counties and non-profit organizations nationwide. This year, only 73 cities throughout the country received the award. Recognition from the National Procurement Institute provides the City an opportunity to document the procurement process and be evaluated by an outside agency to ensure best practices.
