WATER MAIN CONNECTION WORK AT NORTH COLLIER BLVD AND NORTH BARFIELD DRIVE

(October 11, 2022) The City is beginning work at the intersection of North Collier Blvd and North Barfield Drive that will require a temporary lane closure and detours. Between October 14 and October 18, the right turn lane from Collier Blvd to Barfield Dr. will be partially closed. The northbound sidewalk on Collier Blvd will be closed from Elkcarn Circle to North Barfield Dr. and Freedom Park will be closed throughout the duration of the project. The project consists of installing a new 12-inch water main at the intersection to connect the new water main on Collier Blvd to the existing water main along Barfield Drive. This interconnection will improve the system hydraulics and will provide fire suppression water supply to the Marco Shores Community. The project is expected to be completed by December 22, 2022. Watch for workers and drive with caution in this area.

The Maintenance of Traffic (MOT) plan is attached to the release.
