

City of Marco Island

Press Release

11-06-20
062

The City of Marco Island staff is closely monitoring the developments of Tropical Depression Eta. Heavy rains and wind associated with Eta may begin to affect south Florida this weekend. Preparations to protect your property should be completed today as the storm track can change with little notice. Marco Island will likely experience increased rainfall which could cause roads to flood. Do not drive on flooded roads or on any roads with more than six inches of water. Please be patient and wait for the water to drain before traversing city streets.

While City Hall will be closed over the weekend, there are several staff members on-call to respond to emergencies and citizen concerns. For law enforcement or code related issues that are non-emergency call 239-389-5050. If you need to report any issues concerning debris, traffic lights or storm drains, call 239-825-0571. For water or sewer issues, call 239-394-3168. In case of emergency call 9-1-1. Visit the Marco Island City website for helpful information on hurricane preparedness.
