

City of Marco Island

Press Release

10-15-20
061

Every year the Florida League of Cities encourages cities throughout the state to celebrate Florida City Government Week. This year City Government Week is October 19-23, 2020. This is a time for municipalities to provide and foster civic education, collaboration and volunteerism. Typically there would be a tour of City Hall, a volunteer appreciation luncheon, and a public exhibit of fire department, police department and public works equipment, however due to challenges associated with COVID-19, the City of Marco Island will engage the community virtually during this year's City Government Week.

Each day during City Government Week, the City will highlight a different department thanking the employees who work behind the scenes to provide important service to residents. We will showcase the volunteers who serve on City boards and committees that help inform City Council decision making. The City would also like to feature local residents and photos reflecting what makes Marco Island a special place to live. Any resident who would like to submit a photo or short narrative of why they love living on Marco Island, please send an email to info@cityofmarcoisland.com any time before October 23, 2020.
