

# City of Marco Island *Press Release*

09-03-21  
21-47

The rehabilitation of a water supply well will begin on September 7, 2021. The well is located within the South Floral Street public right-of-way so the road will be closed from September 7 through October 5, 2021 while the project is underway. Local traffic will be able to transit through the area, and mail and garbage services will not be disrupted.

A crane and a large holding tank will be positioned on South Floral Street and temporary protective traffic barricades will be in place surrounding the well area to prevent pedestrians from crossing. Any areas disturbed or degraded during the project will be restored at the conclusion of the construction.

A temporary traffic control plan is attached. Please use caution when traveling through the area. Residents can contact Sonia Iszler at 239-398-9499 with any questions regarding this project.
