## INTRODUCTION SECTION

# City of Marco Island

---

April 6, 2023

To the Members of the City Council and Citizens of the City of Marco Island, Florida:

Florida Statutes require that all general-purpose local governments publish within nine months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of independent licensed certified public accountants. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the City of Marco Island, Florida (the “City”), for the fiscal year ended September 30, 2022.

This report consists of management’s representations concerning the finances of the City. Consequently, management assumes full responsibility for completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government’s assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City’s financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City’s comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City’s financial statements have been audited by Mauldin & Jenkins, LLC, a firm of independent licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City’s financial statements for the fiscal year ended September 30, 2022, are fairly presented in conformity with GAAP. The independent auditor’s report is presented as the first component of the financial section of this report.

The Governmental Accounting Standards Board (“GASB”) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City’s MD&A can be found immediately following the report of the independent auditors.

## **The City and Its Services**

The City was incorporated on August 28, 1997. Marco Island, Florida, is located in the southwestern part of the state, on the Gulf of Mexico side of the Ten Thousand Islands region of the Florida Everglades. Originally discovered by the Spanish and named Isla de San Marco (Saint Mark’s Island), modern

development of the island began in the late 1960's by the Deltona Corporation. Prior to incorporation in 1997, the island was a part of unincorporated Collier County and was served by a local Fire Protection District. The City serves a permanent population of approximately 16,000, which grows up to approximately 45,000 in the peak winter season. The City is empowered to levy a property tax on both real and personal property located within its boundaries.

The City has operated under the Council-Manager form of government since incorporation. Policy-making and legislative authority are vested in the governing council consisting of a chairperson and six other members. City Council is responsible for passing ordinances and approving the budget, appointing boards and committees and hiring both the City Manager and the City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments. The council is elected at-large on a non-partisan basis to four-year staggered terms. Council members are eligible to serve a maximum of eight years during their lifetime. The City Council Chair is elected by the members of the City Council annually to a one-year term of office.

The City provides a full range of services authorized by statute and local charter. These include police, fire, parks, recreation, streets, drainage, capital improvements, planning, zoning, community affairs and development and general administrative services, as well as water production and distribution and wastewater collection and treatment. During the fiscal year ended September 30, 2004, as more fully described later in this report, the City acquired the water and wastewater operations on the island and now operates those services through the City's Water and Sewer Utility Department.

The Hideaway Beach Tax District was created as a component unit of the City in 2003. Voters in this private neighborhood approved a tax levy for re-nourishment of the beaches adjacent to the neighborhood.

### **Budget Process**

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City are required to submit requests for appropriation to the City Manager. The City Manager uses these requests as the starting point for developing a proposed budget and holds the public budget workshops with the City Council on the proposed budget. Two public hearings are held on the budget, with the final budget adopted no later than September 30, the close of the City's fiscal year. The appropriated budget is prepared by fund and by department. Budget control is maintained at the fund level. Budgets are adopted for the following funds: General Fund, Water/Sewer Utility Enterprise Fund, Capital Projects Fund, Debt Service Fund, Building Services Fund, Self-Insurance Internal Service Fund, Hideaway Beach Special Taxing District Fund, and Police and Fire Pension Funds.

The City Manager may make transfers of appropriations within a fund or department. Budget amendments that increase fund appropriations require the approval of the City Council. The City Council has authorized the City Manager to amend, modify or otherwise adjust the operating budget to a maximum limit of \$50,000 in total amendments, modifications or adjustments during the year. A budget re-appropriation approved by City Council, consolidating all budget amendments approved during the course of the year and those recommended by the City Manager near the end of the fiscal year, officially amends the annual budget.

Capital planning for the community is accomplished through two separate long-term budget documents. The capital projects fund finances general government improvements to streets and intersections, storm drainage, bridges, park facilities, landscaping, vehicles, equipment, and general government buildings. A 5-year capital improvements plan is updated and adopted annually as part of the budget process. The

acquisition of Marco Island Utilities, discussed below, drove the need for an initial 10-year capital program to upgrade and expand both the water and wastewater systems. The comprehensive 10-year capital program is updated every 5 years and submitted to the State as required by Florida Statutes.

### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

**Local Economy:** Marco Island was developed as a planned community of exclusive water-access and waterfront residences with hotels, condominiums, and commercial businesses to support the vitality of the island lifestyle. Originally marketed as a winter retreat for people with permanent homes in the north, Marco Island has evolved over the years into a community of diverse age groups and interests and an increasing number of permanent residents. The business community primarily provides goods and services to the seasonal, permanent, and visitor communities.

The City continues to enjoy the results of a planned, platted and deed-restricted community. A full 75% of the single-family building lots are located on man-made canals and bays affording easy boating access to the Gulf of Mexico and the Ten Thousand Islands forming the western boundary of the Everglades. The community offers public beach access at both ends of the island, an additional beach access for the exclusive use of island residents, and river access between the island and the mainland. Beachfront property is high-density, with multi-family and tourist-oriented accommodations.

The long-term economic outlook for the City is positive. Since the low point caused by the 2008/2009 recession, the island economy has enjoyed an exceptionally strong residential real estate market with high growth in new home starts and home and condominium re-sales. Although the COVID 19 Pandemic had an effect on the City's activity-based taxes in fiscal year 2020, these were supplemented by the Coronavirus Aid, Relief, and Economic Security Act (CARES) and the American Rescue Plan Act (ARPA) funding received in fiscal years 2021 and 2022.

Marco Island will never be duplicated because the U.S. Army Corps of Engineers now prohibits "dredge and fill" coastal development and mangrove forests are Federally protected.

The 2021 assessed taxable valuations used for property taxes in fiscal year 2022 showed a 4.4% increase from the prior year. The 2022 assessed taxable valuations to be used for property taxes in fiscal year 2023 reflected an increase of 16.9% from the 2021 assessed valuations. It is projected that the 2023 valuations used to determine property taxes for fiscal year 2024 will again increase, albeit not as significant as in the prior year.

### **Long-term Financial Planning**

The City includes a five-year capital improvement plan for both its governmental and enterprise activities. The budget reflects the emphasis on maintaining existing service levels and its present investment in facilities and people while attempting to fully fund the City's pay go system, or "bucket plan". A thorough review has resulted in a financial restructuring of capital projects and the development of a "bucket plan" that will be used to reduce reliance on debt financing and stabilize property tax millage rate increases in the future.

**Marco Island:** In July 2002, the City negotiated a fifteen-year inter-local agreement with Collier County to transfer ownership of public roads and rights-of-way from the County to the newly formed City. Additionally, the County agreed to pay the City \$15 million in return for the City assuming the roadway

segments. The last \$2 million dollars were withheld by the County due to a disagreement on the intent of the inter-local agreement. In June 2017, the City amended the original agreement thereby transferring jurisdiction of Goodland Road, 92A, back to the County in lieu of receiving the last \$2 million.

The City is a true island and has embarked on a repair and replacement process of all 15 bridges within the City's limits. In March 2020, TY Lin International was awarded the contract for the structural design services for the replacement of the West Winterberry Drive Bridge in the amount of \$937,022. Moreover, the City continues to include drainage improvements, street resurfacing, bike lane widening, and shared-use pathway construction as part of its Capital Improvement Plan each year.

In November 2018, the residents of Collier County approved a referendum for an additional one cent sales tax over seven years for infrastructure purposes. The City expects to receive approximately \$22 million over the seven-year term.

A master plan for various city parks was approved in 2005. Improvements at Mackle Park and Veterans Community Park have occurred in phases over the past few years with grant funding and annual expenditures of capital improvements funds. During fiscal year 2014 a nonbinding referendum was held to determine if residents of the island wanted a new Mackle Park community building. The vote was 51% in favor to construct the center up to a maximum cost of \$3.5 million. The project plans were completed in fiscal year 2015 and the construction contract was awarded during fiscal year 2016. The building was substantially complete as of November 2017. The Veterans Community Park continues to be a major focal point for the island activities such as seasonal festivals and a weekly farmers' market. In April 2018 Kimley Horn was contracted to explore different conceptual plans based on community input for Veterans Community Park. In August 2019, Kimley Horn was awarded the design work, at estimated cost of \$594,950, for the facilities to be constructed at the Park based on the concept most supported by the community and its civic leaders. In addition, City Council approved the contract in the amount of \$168,223 with Manhattan Construction in August 2020 for the Construction Manager at Risk services during the design, or pre-construction phase, to Manhattan Construction.

In March 2019, BSSW Architects Inc was awarded phase 1 design work in the amount of \$350,000 for the new Station 50 building. In April 2020, the contract for the remainder of the design in the amount of \$797,695 was executed by the City Manager. In addition, City Council approved the contract in the amount of \$87,613 with Manhattan Construction in August 2020 for the Construction Manager at Risk services during the design, or pre-construction phase, to Manhattan Construction.

In August 2021, City Council approved the Construction Manager at Risk Contracts for the Fire Station 50 and the Veterans Community Park projects with Guaranteed Maximum Prices of \$12,592,673 and \$11,015,244, respectively. Of the total costs, \$8,000,000 for Fire Station 50 and \$5,000,000 for the Veterans Community Park Project were to be financed. In August of 2021, City Council approved the issuance of bonds not to exceed \$13,000,000 for construction of both projects. In September 2021, the City closed on public placed bonds with a par value of \$11,910,000 with a net premium of \$1,232,289.

**Marco Island Utilities:** In November 2003, the City achieved a long-term objective with the acquisition of the local water and wastewater operations from a private provider. Prior to that date, the City's utility fund was used to account for the wastewater distribution system serving approximately 1,200 accounts with central sewer on the island. Wastewater treatment was handled by Florida Water Services under contract. The City issued \$101 million in utility revenue bonds to purchase utility operations on Marco Island and at an adjacent area of unincorporated Collier County known as Marco Shores. Currently approximately 10,000 utility accounts are served. The cost of the utility acquisition was approximately \$85 million with additional funds raised to begin the upgrading of a neglected utility infrastructure. In March 2010, the City issued \$58 million in utility revenue bonds to fund and refund capital improvements

on the City's utility investment. Additional funds for capital investment are provided through monthly revenue deposits to a capital reserve account and a renewal, replacement, and improvement account as required by bond covenants. The City has refunded existing Water & Sewer Utilities bonds on several occasions to take advantage of the prevailing low interest rate environment which has lowered the annual debt service for the Enterprise Fund.

## **Financial Policies**

The City's basic financial statements are prepared in conformity with generally accepted accounting principles. The Governmental Accounting Standards Board is the acknowledged standard setting body for establishing accounting standards followed by governmental entities in the United States.

**Investments:** In 2002, the City Council approved an investment ordinance, and the City has a program of active portfolio management allowing for the purchase of investments as allowed by Florida Statutes to increase yields while maintaining safety and liquidity. Investments are limited to a maximum maturity of five years with the exception of the investment of debt service reserves, which is limited to the remaining life of the corresponding debt, and the investment of pension trust funds.

**Financial Reserve Policy:** The City established a financial reserve policy to handle the distinctive emergencies and contingencies of our barrier island. Per that policy the City will maintain emergency reserves of 25% of general fund's operating budget for the proposed fiscal year.

**Charter Spending Cap:** The City is unique in Florida with a spending cap included as part of the original charter of the City after the first four years of incorporation. Currently, increases in annual spending are limited to 3% annually plus the annual change in the Social Security cost-of-living adjustments, or COLAs. The charter was amended by the voters in 2002 to remove the expenditures of self-supporting enterprise funds from the calculation of the spending cap. The City Council may approve emergency expenditures outside of the cap. Further information on the spending cap and the calculation of compliance is included in the Management Discussion and Analysis (MD&A) section of this report.

**Risk Management:** Through fiscal year 2004, the City purchased property, liability and workers' compensation insurance from the Florida League of Cities Municipal Insurance Trust. Beginning in fiscal year 2005, the City elected to self-insure a greater degree of risk, retaining the first \$100,000 per occurrence of general liability loss, the first \$50,000 per occurrence of property loss, and the first \$350,000 per occurrence of workers' compensation loss. This program, administered through the Public Risk Insurance Trust, reduces the fixed costs of premiums paid while limiting the financial exposure to the City with the purchase of an annual aggregate stop-loss beginning at \$1,200,000 in cumulative annual losses. The City is a Drug-Free Workplace and has safety programs in place to minimize risk exposures. To prevent and control improper conduct in government the City instituted an employee fraud hotline where any wrongdoing can be reported in an anonymous manner.

**Major Initiatives:** City staff again presented their pay go capital plan to City Council and the Community as part of an initiative to reduce the reliance on debt to fund the City's capital program. The plan involves the funding of items over their expected life term to have the funds available by the time they are fully depreciated. The plan provides the Department Directors the funding necessary to maintain an adequate level of service while allowing flexibility so that they may prioritize their expenditures.

## **Awards and Acknowledgements**

**Certificate of Achievement:** The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Marco

Island, Florida, for our Annual Comprehensive Financial Report for the fiscal year ended September 30, 2021. This was the twelfth consecutive year that the government has achieved this prestigious award.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

**Acknowledgements:** The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated service of the entire staff of the Finance Department. We also thank the City Manager, City Council, and Chair, for the interest and support in planning and conducting the financial operations of the City. Moreover, we wish to express our appreciation to the members of the Audit Advisory Committee for volunteering their time and input. In addition, we wish to express our appreciation to our audit firm, Mauldin & Jenkins, LLC, for their comprehensive and efficient examination of our accounts and suggestions for improvement.

Respectfully submitted,

**INDEPENDENT AUDITOR'S REPORT**

---

City Council and City Manager  
City of Marco Island, Florida

**Report on the Audit of the Financial Statements**

***Opinions***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Marco Island, Florida (the "City"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Marco Island, Florida and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 22, the budgetary comparison information, schedules of net pension liability and related ratios, schedules of contributions, schedule of pension investment returns, and schedule of the City's total OPEB liability and related ratios on pages 86 through 96 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining and individual nonmajor fund statements and schedules and the schedule of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and Chapter 10.550, Rules of the Auditor General of the State of Florida, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund statements and schedules and the schedule of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated April 6, 2023, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

## CITY OF MARCO ISLAND, FLORIDA

### MANAGEMENT DISCUSSION AND ANALYSIS

The purpose of financial reporting, in general, is to provide the readers of the financial statements with information that will help them make decisions or draw conclusions about an entity. As management of the City of Marco Island, Florida (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2022. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal, which can be found starting on page IV of this report.

### Financial Highlights

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$224.8 million (*net position*). Of this amount, \$43.6 million, or 19.4% (*unrestricted net position*) may be used to meet the ongoing obligations to citizens and creditors. Governmental activities account for 55% of total net position while business-type activities made up the remaining 45%.
- The City's total net position overall increased by \$12 million or 5.6% during the current fiscal year.
- The City's business-type activities reported total net position of \$101.2 million, which is an increase of \$2.2 million, or 2.8%, in comparison to the prior year.
- The City's governmental activities reported total net position of \$123.7 million, which is an increase of \$9.3 million, or 8.1%, in comparison to the prior year.
- As of the close of the current fiscal year as reported in the fund financial statements, the City's governmental funds reported combined ending fund balances of \$41.2 million, a decrease of \$10.9 million in comparison with the prior year. Approximately 16% of this total amount, \$6.6 million, is *available for spending* at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, fund balance for the General Fund was \$10.1 million or 43.9% of the general fund expenditures and other financing uses. The \$10.1 million in *unassigned fund balance* includes \$5.7 million to meet the City's financial reserve policy.
- At the end of the current fiscal year, unrestricted net position of the water and sewer utility fund totals \$11.5 million compared to \$11.9 million in the prior year.
- The financial condition of the City continued to be strong in 2022. This strength allowed the City to respond to the COVID 19 pandemic without any disruptions to normal operations. The distribution of the second tranche of federal funds through the American Rescue Plan (ARP) assisted a great deal with specific line-item prior year revenue shortfalls. Major capital investments were made to both the utility system and the facilities, amenities, and infrastructure of the community. Continued funding of the bucket plans for both governmental and business type capital infrastructure is reflected in the restricted fund balances. Professional department heads managed their operations within budgeted appropriations.

## CITY OF MARCO ISLAND, FLORIDA

### **Overview of the Financial Statements**

This management discussion and analysis (MD&A) is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statement consists of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. In addition to these basic financial statements, this report contains other supplementary information.

**Government-wide Financial Statements:** The focus of the *government-wide financial statements* is on the overall financial position and activities of the City. Reporting is similar to that of a private-sector business. The City's government-wide financial statements include the statement of net position and statement of activities. As described below, these statements do not include the City's fiduciary funds because resources of these funds cannot be used to finance the City's activities. However, the financial statements of fiduciary funds are included in the City's fund financial statements, because the City is financially accountable for those resources, even though they belong to other parties.

The *Statement of Net Position* presents information on all of the City's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Although the purpose of the City is not to accumulate net position, in general, as this amount increases it indicates that the financial position of the City is improving over time.

The *Statement of Activities* presents the revenues and expenses of the City as well as information showing how the City's net position changed during the most recent fiscal year. The items presented on the statement of activities are measured in a manner similar to the approach used in the private-sector in that revenues are recognized when earned and expenses are reported when incurred. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, law enforcement, fire/rescue services (emergency medical service and transport is provided by Collier County), planning and zoning, code compliance, building services, transportation, and parks. The business-type activities of the City include its water and wastewater treatment plants, water distribution, sewer collection services, sewer assessment districts, and its recreation services.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also a legally separate special tax district for which the City is financially accountable. This *component unit* functions for all practicable purposes as an independent advisory board and special revenue fund of the City. The financial activity of this component unit is shown in a separate column from the primary government on the *Statement of Net Position* and *Statement of Activities*.

## CITY OF MARCO ISLAND, FLORIDA

**Fund Financial Statements:** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The City's fund financial statements are divided into three categories: (1) governmental funds, (2) proprietary funds, and (3) fiduciary funds.

**Government Funds:** *Governmental funds* are used to account for essentially the same functions as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City presents in separate columns, funds that are the most significant to the City (major funds) and all other governmental funds are aggregated and reported in a single column (non-major funds). As of September 30, 2022, the City has three major governmental funds: the General Fund, Debt Service, and Capital Projects Fund.

**Proprietary Funds:** The City has two proprietary funds: enterprise funds and internal service funds. For both types of funds, costs incurred are recovered through user fees and charges. *Enterprise funds* are used when the primary customers are citizens and businesses. *Internal service funds* are used when the fund provides benefits to the government's departments or other funds.

Enterprise funds are used to report the same functions as *business-type activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in greater detail. The City's major proprietary fund accounts for the water and wastewater utility. A non-major fund reports the activities of the recreation programs and racquet center. The internal service fund accounts for the accumulation of reserves and payment of insurance premiums and claims.

**Fiduciary Funds:** *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City's own programs. The City has two fiduciary funds, a Firefighters' defined benefit pension trust fund and a Police Officers' defined benefit pension trust fund. Fiduciary funds are accounted for in a manner similar to proprietary funds.

**Notes to the Financial Statements:** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## CITY OF MARCO ISLAND, FLORIDA

**Other Information:** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information (RSI)* concerning the City's defined benefit pension plans and budget-to-actual schedules for the City's General Fund.

This report contains other information including support schedules, a statistical section (unaudited) and other reports section.

### Government-wide Financial Analysis

Net position serves as a useful indicator of the City's financial position. The City's total assets and deferred outflows exceeded liabilities and deferred inflows by \$224.9 million at the close of the fiscal year. This was an increase of approximately 5.7% compared to last year's net position of \$212.8 million. The chart below shows the steady and gradual increase up to a plateau over the last ten fiscal years of both the governmental and business-type activities.

The relative stability of the City's governmental performance is reflected in the \$9.2 million, or 8.1%, increase in total net position of governmental activities. This steadiness is primarily due to Council's desire to balance governmental debt and smooth expenditures while at same time maintain its infrastructure and provide the public additional amenities as planned for over the years. In business-type activities, the \$2.8 million, or 2.8%, increase in total net position is due to capital outlay costs recognized on the City's water and sewer infrastructure which has a direct relationship to the net investment in capital assets.

A substantial portion of the City's net position, \$92.1 million or 41%, reflects its investment in capital assets (e.g., land, buildings, improvements, infrastructure, and equipment; all categories are net of depreciation), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should still be noted that the resources needed to repay this debt must be provided primarily from tax and water rates sources since the capital assets themselves cannot be used to liquidate these liabilities.

**CITY OF MARCO ISLAND, FLORIDA**

Some assets are subject to external restrictions on how they may be used. This portion of net position is earmarked for the completion of capital projects, debt service payments or growth-related expenses to parks, roads, police and fire rescue services. This amount totals \$85.4 million or 38% of net position as of the end of the fiscal year.

The remaining balance of unrestricted net position (\$47.3 million or 21%) may be used to meet the City's ongoing obligations to citizens and creditors. The amount of the City's total unrestricted position decreased by \$2 million compared to last fiscal year, with most of the decrease occurring in the governmental activities' net position due to the use of reserves to cover a portion of the costs of Fire Station 50 and the Veterans Community Park projects. The City's business-type activities also had an increase in their revenues of approximately \$0.5 million which had a positive effect on its net position.

The following schedule is a summary of the fiscal 2022 Statement of Net Position with comparative information for fiscal 2021.

**Summary Statement of Net Position (in \$ millions)**

|                                  | Governmental Activities |          | Business-type Activities |         | Total    |          |
|----------------------------------|-------------------------|----------|--------------------------|---------|----------|----------|
|                                  | 2022                    | 2021     | 2022                     | 2021    | 2022     | 2021     |
| Current and other assets         | \$ 59.8                 | \$ 61.2  | \$ 96.2                  | \$ 94.6 | \$ 156.0 | \$ 155.8 |
| Capital assets                   | 98.4                    | 79.4     | 138.1                    | 147.3   | 236.5    | 226.7    |
| Total Assets                     | 158.2                   | 140.6    | 234.3                    | 241.9   | 392.5    | 382.5    |

**Government Activities:**

The total net position of the City’s governmental activities increased \$9.3 million from \$114.4 million last fiscal year to \$123.7 million in the current fiscal year primarily due to the capital expenditures related to Fire Station 50 and the Veterans Community Park amenities. The City received the second half of the ARP (American Rescue Plan) in the amount of \$873,096 to cover its loss in revenues during fiscal year 2020. The City continues to benefit from the City Council’s strategic direction, which has resulted in operating efficiencies and cost savings. The change in total net position over the past ten years is presented in the bar chart shown below:

## CITY OF MARCO ISLAND, FLORIDA

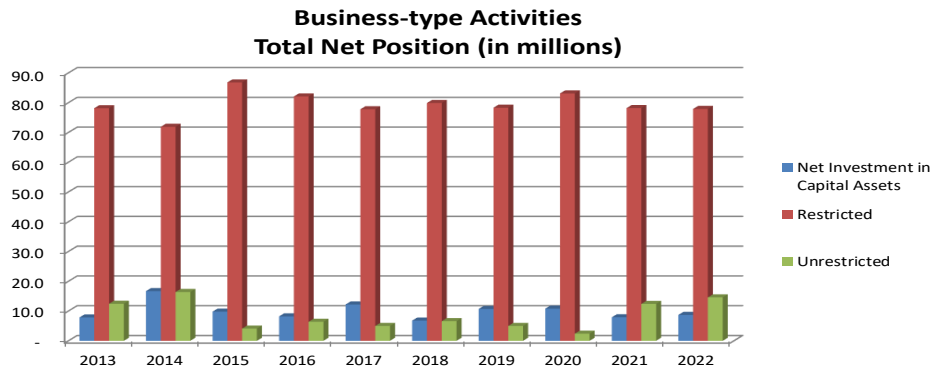

### Business-type Activities:

The City’s total net position of the business-type activities increased by \$2.8 million, or 2.8%, from \$98.4 million last fiscal year to \$101.2 million in the current fiscal year.

In 2003, the City issued \$101 million in bonds for the acquisition of the water and sewer utility system for the island and an area adjacent to the island. The seven-year STRP plan that started in 2006 to replace deteriorating septic systems and provide a city-wide central sewer system was completed during the fiscal year.

The City’s business-type activities investment in capital assets remained relatively flat from last year primarily due to the level of activity with regards to capital projects.

### Financial Analysis of the City’s Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Traditional users of the governmental financial statements will find the fund financial statement presentation more familiar. The focus of the fund financial statements is on major *funds*, rather than fund *types*.

**Governmental Funds:** The focus of the City’s *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. The governmental funds presentation is designed to show the sources and uses of liquid resources. This is the manner in which the budget is typically developed. Such information is useful in assessing the City’s financing requirements. In particular,

## CITY OF MARCO ISLAND, FLORIDA

*unassigned fund balance* may serve as a useful measure of the City's current financial resources available to spend for City operations.

As of the end of the current fiscal year, the City's *governmental funds* reported combined ending fund balances (non-spendable, restricted, assigned, and unassigned) of \$41.2 million, a decrease of \$10.9 million in comparison with the prior year. This decrease resulted primarily due to use of the majority of the \$13 million bond proceeds from the 2021 issuance for the construction of Fire Station 50, and the Veterans Community Park project, with \$8 million and \$5 million allocated respectively.

*Assigned and unassigned fund balance* is the portion of fund balance available for spending at the City's discretion. This year 62.5% of the total governmental fund balance constitutes assigned and unassigned fund balance. Of this amount, the Council has assigned or indicated its intention that \$19.2 million be used for the use of on-going capital improvement projects. Approximately \$6.6 million is unassigned and available for future spending or emergencies and contingencies.

The remainder of fund balance is *committed* (internal) or *restricted* (external) to indicate it is not available for new spending because it has already been appropriated by enabling legislation for specific purposes, including debt service, parks construction, road construction, and public safety services.

The *general fund* is the chief operating fund of the City. General tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. General operating expenditures, fixed charges, and capital improvement costs not paid through other funds are paid from this fund.

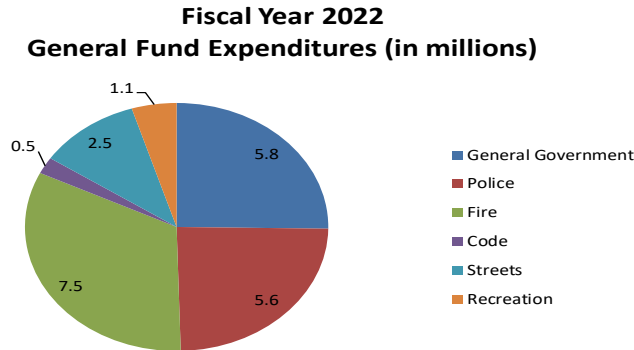

At the end of the current fiscal year, the general fund's total fund balance is \$13.5 million. The City has a long history of planning for contingencies and has a financial reserve policy which sets aside a 25% reserve of the prior year's budget, currently \$5.7 million, or approximately four months of normal general fund operating expenditures to cover emergencies and other contingencies that may occur.

City Council has made a conscious decision to use ad valorem taxes (property taxes) as its primary revenue source for the general fund, instead of diversifying its revenue base, along with with other taxes, user fees, and charges for services. Total general fund revenues increased \$0.3 million compared to last year primarily due to intergovernmental funds related to CARES and ARP funding as well as the normalization of the revenues received via the State. The pie chart below shows the breakdown by percentage of general fund revenues by type.

## CITY OF MARCO ISLAND, FLORIDA

Total general fund operating expenditures increased by \$1.4 million. The increase was primarily due to wage increases required by collective bargaining agreements and cost of living adjustments for general employees. The pie chart below shows the breakdown of fiscal year 2022 general fund expenditures by department category.

The capital projects fund is one of the City's major funds. Since its incorporation in 1997, the City has embarked upon major infrastructure projects throughout the city limits. Current projects focus on the repairs of bridges, road surfaces, drainage lines and maintenance of existing infrastructure and improvements to parks and open spaces for community events. The City continues to appropriate funds as part of its Capital Improvement Program (CIP) for capital needs in future years. During fiscal year ended September 30, 2022, \$24.8 million in capital projects were completed.

The debt service fund is another of the City's major funds. The debt service fund primarily services debt related to funds issued for capital project purposes. The City did not issue any new debt during the fiscal year and will fully pay off two of its bonds in the next two fiscal years. Debt service for the year amounted to \$1 million for the year ended September 30, 2022, relatively the same amount as in the prior year, and primarily related to the Fire Station/Veterans Community Park Bond and the Smokehouse Bay/Herb Savage Bridge Bond.

**Proprietary Funds:** The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Proprietary funds account for services that are generally supported by user fees and charges to customers. Proprietary funds are presented on a total economic resource basis. Proprietary fund statements provide both short-term and long-term financial information. The City's proprietary fund is composed of one enterprise fund and one internal service fund. Unrestricted net position for the enterprise fund at the end of the year was \$11.5 million. The City's unrestricted fund balance increased primarily due to the completion of capital improvement projects of approximately \$5.6 million, which are restricted as the projects are ongoing until fully completed and transferred to their respective asset account. This in turn has an effect on the unrestricted portion of fund balance as it is calculated in conjunction with the net investment in capital account.

The water and sewer utility has carried out several major multi-year capital construction projects since purchase of the system and has determined it is in the best interest of the City to use the City's available resources during construction, thereby delaying the need for the issuance of debt and incurring interest expenses. In addition, the City obtained State Revolving Fund Loans from the Florida Department of Environment Protection for the financing of sewer assessment districts constructed each fiscal year, as

## CITY OF MARCO ISLAND, FLORIDA

well as permanent financing with other financial institutions which will be paid from the various sewer assessment districts.

Overall, the water and sewer utility fund's net position as shown on the fund financial statements increased by \$3.1 million from \$97.9 million in the prior year to \$101 million at the end of this fiscal year. The majority of the increase is a result of capital outlay projects in progress or completed and their effect on net investment in capital assets. Operating revenues for the proprietary fund increased by \$0.5 million, or 1.4%, and operating expenses, not including depreciation and amortization costs, increased by \$0.2 million, or 1.4%, compared with the prior year. Interest income decreased by \$1.4 million. Interest expense decreased by \$0.3 million, or 6.5%. Operating income before non-operating revenues, capital contributions, and transfers was \$6.5 million this fiscal year compared to \$6.6 million last fiscal year, representing an decrease of \$0.1 million primarily due to a increase in depreciation expense. Staff is closely monitoring impacts on revenues due to conservation, record weather conditions, and elasticity in volumetric usage due to the system's compulsory rate increases.

### **General Fund Budgetary Highlights and Charter Spending Cap**

There was an increase of \$0.9 million in appropriations in the general fund during the year ending September 30, 2022. The increase in budgeted expenditures was primarily due to the retroactive wage increases agreed to as part of the Firefighters Collective Bargaining Agreement. Historically, the City develops a conservative budget based upon 96.5% of ad valorem taxes, and between 90% and 95% of the State's various state-shared revenue projections due to the uncertainty in the economy. Actual revenue received was \$1.8 million more than budgeted. This was primarily due to an overage in intergovernmental revenues caused by the second tranche of ARP federal funds received as well as increased in state shared revenues. Overall, departmental expenditures were in line with budgeted expenditures.

**Charter Spending Cap:** The City is governed by a spending cap in the City Charter, limiting the growth in expenditures to 3% plus the year-to-year change in the federal cost of living adjustment (COLA) from the preceding year. In September 2002, voters approved amending the spending cap by removing all expenditures of self-supporting or business-type enterprise funds and expenditures funded by grants, gifts, and impact fees from the calculation of expenditures covered by the spending cap. Ordinance 14-08, approved by the City Council in August 2014, replaced Resolution 03-03 as adopted by City Council on January 13, 2003. The Ordinance establishes the legislative intent and procedures for the calculation of the expenditure limitations. Exhibit A of the Ordinance sets forth the following policies and procedures used to calculate the spending cap limits:

1. The term "operating expenditures" shall be interpreted as "expenditures from the operating budget of the City's Government Fund."
2. Expenditures from the operating budget shall include transfers into capital asset funds for future use.
  - a. GASB states that "expenditures represent the use or expected use of current financial resources" and that "expenditures of governmental fund resources" may give rise to general capital assets, which are defined as "capital assets of the government that are not specifically related to activities reported in proprietary or fiduciary funds."
  - b. GASB Codification Chapter 1600.116 defines "expenditures" as decreases in net financial resources."
3. The term "prior year's expenditures" shall be interpreted as the City's determination of actual expenditures for the current year at the time the spending cap calculation is to be undertaken.

**CITY OF MARCO ISLAND, FLORIDA**

4. The term “then current Federal COLA (Department of Labor, Bureau of Statistics, Consumer price Index)” shall be interpreted as the prior year’s COLA released by the Social Security Administration (SSA) in October. That is starting with Fiscal Year 2015 the COLA used will be SSA COLA released in October 2013 (effective January 1, 2014).

As of September 30, 2022, any accumulated capital funds will remain in the capital projects assigned fund balance, as defined by the implementation of GASB 54, to exclude them in the future year’s spending cap calculation.

Effective October 1, 2022, the fiscal year 2023 General Fund Budget approved by City Council was \$28,266,978. Annual contributions committed to the asset replacement reserve fund are covered by the spending cap while future expenditures from the fund will be exempt from the spending cap.

|  |                   |
|--|-------------------|

| <b>Fiscal Year 2023 Spending Cap</b>                         | <b>28,575,596</b> |

**Capital Assets and Debt Administration**

As expected, the City’s investment in capital assets and its use of debt financing has changed dramatically since the acquisition of the water and sewer system.

**Capital Assets:** The City’s capital assets balance (net of accumulated depreciation) for its governmental and business-type activities as of September 30, 2022, was \$236.5 million. The amount of net capital assets includes land, buildings, improvements other than buildings, and machinery and equipment.

The \$19 million increase related to governmental-type net capital assets is primarily related to the construction of the new Fire Station 50 and the Veterans Community Park amenities. The \$9.2 million

## CITY OF MARCO ISLAND, FLORIDA

decrease in business-type activities is primarily related to depreciation expense. Additional information on capital assets can be found in Note 6 to the financial statements.

**Long-term Debt:** The City continued to have strong underlying bond ratings. Fitch has issued ratings of “AA” for the City’s public improvement bond issue. Fitch, Moody’s, and S&P have issued “AA-”, “Aa3”, and “A+” for the Water and Sewer Utility system revenue bond issues, respectively.

At the end of the current year, the City had total long-term debt (excluding accrued compensated absences, OPEB liability, and net pension liability) outstanding of \$157.9 million. Of this amount \$18.1 million is considered governmental obligations and the remaining \$139.8 million is business-type debt which is secured solely by specified water and sewer utility fund revenue sources.

Capital leases of \$1.5 million are secured by non-ad valorem revenue. A capital lease in the amount of \$0.4 million was entered into for the Public Works Sweeper Truck during fiscal year 2022. In 2014 the City issued a non-ad valorem capital improvement revenue bond in the amount of \$6 million to finance the Smokehouse Bay Bridge/Herb Savage Bridge project. The capital improvement revenue bond has a balance of \$3.9 million. In 2021 the City issued a public improvement bond at a par value of \$11.9 million with a premium of \$1.2 million for a total of \$13.1 million in cash to build a new Fire Station 50 and improve the Veterans Community Park.

As is common for a newly acquired utility system, the City has significant debt related to its water and wastewater utility system. Utility Series 2003 Revenue Bonds were issued to finance the acquisition of the water and wastewater utility system from Florida Water Services, Inc. in November 2003. Utility Series 2006 and 2008 Revenue Bonds and State revolving loan funds from 2007 and 2010 were used to finance additional capital improvements to the City’s water and wastewater systems. During fiscal year 2010, tax-exempt bonds were issued to refund and reimburse the water and sewer utility for projects previously committed and spent as well as for supplementary projects. In addition, taxable bonds were issued to refund the prior year’s bonds and to fund a deposit to the required debt service reserve. The Series 2011 revenue bonds took advantage of favorable market conditions to refund a portion of the original 2003 acquisition revenue bonds. The Series 2013 revenue bonds took advantage of favorable market conditions to refund the remainder of the original 2003 acquisition revenue bonds and the 2008 series. The Series 2016 revenue bonds took advantage of favorable market conditions to partially refund the 2010 revenue bond series. The Series 2020 revenue bonds took advantage of favorable market conditions to partially refund the 2013 revenue bond series.

The debt service of the assessment bonds and state revolving loans are secured solely by the special assessments charged to each district. Construction of all seventeen districts is complete and permanent

## CITY OF MARCO ISLAND, FLORIDA

financing with a balance totaling \$29.5 million is in place. The remaining \$111.2 million of the total \$140.7 million in business-type debt is secured by the general rate base customer fees. Additional information on long-term debt can be found in Note 8 to the financial statements.

### **Economic Factors and Next Year's Budget and Rates**

Collier County is located on the southwest coast of the Florida peninsula, across the state and directly west of the Miami-Fort Lauderdale area. The County's principal industries include tourism, agriculture, fishing and cattle ranching. Located on a barrier island along the Gulf of Mexico, the City's local economy is based primarily on upscale resort and retirement activities. It was originally marketed as a winter retreat for people with permanent homes in the north.

The region enjoys a climate that is classified as sub-tropical and the City has a permanent population of approximately 16,000 which grows to 45,000 in peak winter season with the influx of part-time residents and tourists. The City is the second largest municipality (after the City of Naples) located in Collier County.

More than 57.1% of the city's residents are age 65 or older, compared with 33.1% countywide, and 21.1% statewide. Per the U.S. Department of Labor, the unemployment rate for Collier County is currently 2.6%, down from 3.4% a year ago.

The Collier County Tourist Development Council (Naples, Marco Island, Everglades City Convention and Visitors Bureau) reported that the number of visitors to the three Collier County cities increased by 26% compared to 2020 with the majority visitors being Floridians at 22%, out-of-state at 49%, and the remaining 29% from other countries.

**Property Values and Taxes:** Real property values in Southwest Florida increased dramatically after incorporation in 1997 and prior to 2007. Taxable values on Marco Island increased from \$3.9 billion in 2001 to \$12 billion in 2007. As is true across the country, the growth proved to be unsustainable and eventually the housing bubble burst with values falling significantly. As a result of the recession the City's assessed valuation decreased to approximately the 2005 values. The City's fiscal 2022 taxable value is approximately \$11.8 billion which reflects an increase of 4.4% from the fiscal 2021 value. For fiscal year 2023 the value is now at \$13.8 billion, an increase of 16.9% from the prior year.

### **Taxable Values**

In 1995, the State of Florida limited all local governments' ability to raise property assessments of homestead property in any given year to 3% or cost of living, whichever is lower. Statutory changes to

## CITY OF MARCO ISLAND, FLORIDA

the state's tax laws were passed by the Florida Legislature in 2007 to assist homeowners when the taxable valuations were increasing substantially each year. Implementation of a key provision of the law started for budgets beginning in fiscal year 2008 and provided maximum millage rates for all local governments. In effect, the State required all governments to decrease property taxes by rolling back the operating millage rate to fiscal year 2002 values. Further tax reform regulations allow municipalities to increase the tax rate to the point where tax revenues equal the rolled-back tax rate plus growth in Florida personal income with a simple majority vote of the City Council.

City residents enjoy a standard operating millage rate of 1.7088 mils in fiscal year 2022. That is .1617 less than the pre-incorporation millage rate of 1.8705 in 1997, which only covered fire and rescue services. Since then, services have been expanded to include a local police presence, code enforcement with a magistrate, improved streets and drainage, and additional recreation capabilities. The City's charter mandated spending cap further limited increases to the City's millage rate during the years when the property values were increasing rapidly. During the housing bubble expansion, many local governments throughout the State increased services and expanded their budgets while the City of Marco Island made it a practice of living within limits set forth by the City Charter. Those same governments have endured severe cuts due to the unsustainable growth that the housing bubble created while the City has enjoyed a relative flat millage rate.

Additionally, City Council and residents prefer the use of ad valorem taxes rather than diversifying the City's revenue base with the use of franchise fees and other optional taxes. The City's share of the total ad valorem tax bill received by the residents from Collier County is 15.8%. The remainder of the property tax bill is spent by other taxing agencies including Collier County and the School Board.

**Water and Wastewater Utility:** In November 2003, the City achieved a long-term objective with the acquisition of the local water and wastewater operations from a private provider. Prior to this date, the City's utilities fund was used to account for the wastewater distribution system serving approximately 1,200 accounts with central sewer on this island. Wastewater treatment was handled by Florida Water Services Inc. under contract. The City issued \$101 million in utility revenue bonds to purchase utility operations on Marco Island and at an adjacent area on the mainland of unincorporated Collier County also known as Marco Shores. The cost of the utility acquisition was approximately \$85 million and the additional funds were used to begin the upgrading of a neglected utility infrastructure. Annual funding for capital improvements are required by bond covenants and are deposited monthly to a renewal and replacement fund and a capital reserve fund. Likewise, subsequent project revenue was provided by bonds issued in 2006, 2007, 2008, 2010 and 2011.

The City's demand for water and wastewater services over the past few years has increased slightly; the demand for wastewater services grew as more properties connected to the central sewer system as part of the seven-year Septic Tank Replacement Program (STRP) that was completed in 2013. Infrastructure for the 17 sewer assessment districts has been connected to the central wastewater system, thereby providing more sewage for treatment. Rather than disposing the treated effluent into deep injection wells, the City expanded its investment in the re-use water distribution system. Re-use or effluent water sales lower the usage of potable water and thus defer some capacity improvements to a future date. This deferment of expensive improvements to the water plant lowers the costs to all the current and future system users even if each individual user does not have access to re-use distribution system.

During fiscal 2013 as part of refinancing the 2003 and 2008 bond issues, the City Council adopted Resolution No. 13-16 ratifying and confirming its acceptance and approval to increase rates through and

## CITY OF MARCO ISLAND, FLORIDA

including fiscal year 2018. The base and volumetric rate increases of 7%, 2.1%, 2.1%, 2.2%, and 2.3% took effect at the beginning of each fiscal year from 2014 through 2018 respectively. The 2013 refunding bonds resulted in the release of reserves in the amount of \$6.6 million and a debt service reduction in the amount of \$5.3 million over the remaining term of the bonds.

On December 7, 2016 the City closed on the 2016 bond series which refunded the 2010A bond series. On December 7, 2016 the City also fully paid off, legally defeased, the 2010B bond series with a balance of \$6.2 million by using available water and sewer impact fee funds that arose from several large commercial projects on the island. The 2016 refunding bonds resulted in the release of reserves in the amount of \$1.9 million and a debt service reduction in the amount of \$6.9 million over the remaining term of the bonds. The legal defeasance of the 2010B bonds resulted in the release of reserves in the amount of \$.6 million and interest savings in the amount of \$4.4 million. An additional \$1.3 million in reserves was released in 2020, on the bonds' callable date.

On March 27, 2020 the City closed on the 2020 bond series which advance refunded the 2013 bond series. The 2020 refunding bonds resulted in a debt service reduction in the amount of \$5.9 million over the remaining term of the bonds.

**Hideaway Beach District:** The City is responsible for a legally separate special tax district for which the City maintains accounting records and is financially accountable. This component unit is funded through ad valorem taxes and has an independent advisory board that makes recommendations which are subsequently reviewed and ratified by City Council.

In 2003, voters in the Hideaway Beach neighborhood voted to tax themselves by establishing a special taxing district as the financing mechanism for the area's beach re-nourishment plan. The taxing district requested and received approval for a short-term loan from the City to implement the final phase of the plan in conjunction with funds received from the Collier County Tourist Development Council (TDC). Property values in Hideaway Beach increased by 2.7% compared to last fiscal year, and the tax levy in the Hideaway Beach District increased to 1.500 mils from the last fiscal year at 1.000 mils.

### **Requests for Information**

This financial report is designed to provide interested users with a general overview of the City finances. An electronic version of this report and prior year's reports can be found on the City's website at [www.cityofmarcoisland.com](http://www.cityofmarcoisland.com). Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Finance Director, 50 Bald Eagle Drive, Marco Island, Florida 34145.

### Reconciliation of the Balance Sheet—Governmental Funds to the Statement of Net Position

September 30, 2022

|  |    |                           |
|--|----|---------------------------|
| Total fund balances governmental funds   | \$ | 41,207,421                |
| Total net assets reported for governmental activities in the Statement of Net Position is different because:   |    |                           |
| Capital assets used in governmental activities are not financial resources and, therefore are not reported in the funds.   |    | 98,382,229                |
| Accrued long term debt interest expense is not a financial use and, therefore is not reported in the funds.  |    | (242,448)                 |
| Long term liabilities, including long-term debt, compensated absences, other post-employment benefits, and deferred outflows and inflows of resources relating to other post-employment benefits are not due and payable in the current period, and therefore are not reported in the funds. |    | (21,016,931)              |
| Net pension assets and liabilities are long term and are not due and payable in the current period, and therefore are not reported in the funds.   |    | 6,554,862                 |
| Deferred outflows and inflows or resources related to pensions are applicable to future periods and, therefore, are not reported in the funds  |    | (1,808,739)               |
| Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. This is the portion of net position included in governmental activities in the Statement of Net Position.   |    | <u>612,935</u>            |
| Net position of governmental activities  | \$ | <u><u>123,689,329</u></u> |

Reconciliation of the Statement of Revenues,  
Expenditures and Changes in Fund Balances of Governmental Funds  
to the Statement of Activities  
Year Ended September 30, 2022

|  |                     |
|--|---------------------|
| Net change in fund balance - governmental funds  | \$ (10,903,123)     |
| Amounts reported for governmental activities in the Statement of Activities are different because:   |                     |
| <p>Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$24,731,341) were more than depreciation (\$5,698,468) and net book value of assets disposed (\$31,166) in the current period.</p> |                     |
|  | 19,001,707          |
| <p>Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. This is the amount of debt payments during the current period.</p>             |                     |
| Principal payments on debt, net of bond premium amortization of \$67,148   | 457,148             |
| Principal payments on financed purchases   | 246,060             |
| Debt proceeds from financed purchases  | (363,232)           |
| <p>Some revenues(expenses) reported in the Statement of Activities do not provide (use) current financial resources and therefore are not reported as revenues (expenditures) in governmental funds.</p>   |                     |
|  | (2,693)             |
| <p>Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.</p>   |                     |
| Changes in compensated absences  | (54,749)            |
| Accrued interest   | (175,670)           |
| Other post-employment benefits   | (3,228)             |
| <p>Governmental funds report pension plan contributions as expenditures. However in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.</p>   |                     |
| Pension expense  | (796,866)           |
| Pension contributions  | 2,572,763           |
| <p>Internal service funds are used by management to charge the costs of certain activities, such as insurance, to the funds. This is the net revenue (expense) of internal service funds reported in governmental activities.</p>  |                     |
|  | <u>(703,088)</u>    |
| Change in net position of governmental activities  | <u>\$ 9,275,029</u> |

## CITY OF MARCO ISLAND, FLORIDA

### 1. Summary of Significant Accounting Policies

#### (A) Reporting Entity

The City of Marco Island, Florida (the City), was established in a special election by mail ballot per Florida House of Representatives HB 1729 on August 28, 1997. The City is located on the Gulf of Mexico in the westernmost portion of Collier County. The City operates and is governed by the laws of the State of Florida and its own Charter, which provides for a Council/Manager form of government.

As required by Governmental Accounting Standards Board (GASB), these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the government.

The accompanying financial statements present the City and its component unit, Hideaway Beach District (Hideaway), an entity for which the City is considered to be financially accountable. The Hideaway Beach District was established on April 19, 2004, by the voters within the Hideaway Beach neighborhood to assess a special ad valorem tax within Hideaway.

Hideaway is a discretely presented component unit and is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City. The City is financially accountable for Hideaway as it appoints the Board and its substantive approval is necessary for the budget, tax levies, or the issuance of bonded debt. Separate statements are not issued.

On January 6, 2020, the City of Marco Island formally approved the Articles of Incorporation for the Marco Island Community Parks Foundation, Inc (“Parks Foundation”), a Fiduciary Component Unit, and a 501(c)(3) non-profit corporation organized to provide a broad source of community support for parks (“City Parks”) located or to be located within the City of Marco Island, Florida (the “City”).

In addition, this report also includes the accounts and transactions of the City of Marco Island Firefighters' and Police Officers' Pension Plans (the Firefighters' Pension Plan and the Police Officers' Pension Plan). These plans are administered as a single-employer defined benefit pension plan administered by the Board of Trustees. The Plans are Fiduciary Component Units of the City in accordance with GASB Statement Number 84, Fiduciary Activities.

#### (B) Government-wide and Fund Financial Statements

The basic financial statements consist of the government-wide financial statements and fund financial statements. Both sets of statements distinguish between the governmental and business-type activities of the City. Government-wide financial statements include a Statement of Net Position and a Statement of Activities. These statements report on the government as a whole and provide a consolidated financial picture of the government. As part of the consolidation process, inter-fund activities are eliminated to avoid distorted financial results. The amounts reported as internal balances represent the residual amounts due between governmental and business-type activities. Fiduciary funds of the government are also excluded from this presentation since these resources are not available for general government funding purposes.

## CITY OF MARCO ISLAND, FLORIDA

The Statement of Net Position reports all financial and capital resources of the City's governmental and business-type activities. Governmental activities are those supported by taxes and intergovernmental revenues. Business type activities rely to a significant extent on fees and charges for support. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges for goods or services that are recovered directly from customers for services rendered and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Since the governmental fund financial statements are presented on a different measurement focus and basis of accounting than the government-wide statements, reconciliation is provided which briefly explains the adjustments necessary to reconcile the results of governmental fund accounting to the government-wide presentations.

### **(C) Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements, the proprietary fund financial statements, and the fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Pension trust funds recognize employer and state contributions in the period in which the contributions are due, and the City has made a formal commitment to provide the contributions. Retirement benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. The financial statements of the Plans are prepared using the *accrual basis* of accounting. Plan member contributions are recognized in the period in which the contributions are due.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Under the modified accrual basis of accounting, revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Grant revenues are an exception, as they are considered available when eligible expenditures have occurred even though they may be collected for up to one year after the current fiscal year end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Debt service expenditures and accrued compensated absences expenditures are recorded only when payment is due.

## CITY OF MARCO ISLAND, FLORIDA

Property taxes, public services taxes, franchise taxes, licenses and permits, and interest income associated with the current fiscal period are all considered to be susceptible to accrual and are recorded as earned since they are measurable and available. All other revenue items are considered to be measurable and available only when cash is received by the City.

### **(D) Major Funds and Basis of Presentation**

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for using a separate set of self-balancing accounts, which comprise its assets and deferred outflows of resources, liabilities and deferred inflows of resources, fund equities, revenues and expenditures or expenses. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Accounting principles generally accepted in the United States of America set forth minimum criteria (percentage of the assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined), for the determination of major funds. The non-major funds are presented in one column in the fund financial statements.

The City reports the following major governmental funds:

- The *general fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Most of the essential governmental services such as police services, fire and rescue services, planning and zoning, code compliance, transportation, culture and recreation, and general administration are provided by the general fund.
- The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term debt of the governmental funds.
- The *capital projects fund* accounts for the activities associated with construction and the preservation of the City's governmental capital assets.

The City reports the following major proprietary fund:

- The *water and sewer fund* accounts for the water and sewer collection services provided to its customers. All activities necessary to provide such services are accounted for in this fund, including personal services, contractual services and utilities, depreciation and other expenses.

Additionally, the City reports the following fund types:

- The *internal service fund* accounts for the collection of premiums, accumulation of reserves and payment of insurance claims for the City.
- The *pension trust funds* account for the activities of the Firefighters' and Police Officers' Pension Plans, which accumulate resources for defined benefit payments to qualified employees.

## CITY OF MARCO ISLAND, FLORIDA

- The *custodial funds* account for monies held for the Parks Foundation Fund, not-for-profit to which the City of Marco Island provides accounting services and other general services. It is expected that the Foundation will provide fundraising activities for the benefit of the City's Parks. The sites on which the City Parks are located or to be located are owned by the City. The Foundation shall be responsible for raising funds for various purposes of the City Parks, including City Parks maintenance, capital improvements and technological and safety enhancements, and those other duties as may be established from time to time by the City Council.
- The *special revenue funds* account for revenue sources that are legally restricted to expenditure for specific purposes such as building services. The *grants fund* accounts for revenue sources that are legally restricted to expenditure for specific purposes. The activities within this fund for this fiscal year are mostly related to Hurricane Irma expenditures undertaken as part of the City's recovery efforts to repair and replace its infrastructure.

The accounting policies and the presentation of the financial report of the City have been designed to conform to accounting principles generally accepted in the United States of America as applicable to governmental units, in accordance with statements promulgated by the Governmental Accounting Standards Board.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's primary ongoing operations. The principal operating revenues of the water and sewer enterprise fund and the recreation enterprise fund are charges to customers for sales and services. The water and sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and the internal service fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

### **(E) Assets, Liabilities and Net Position or Equity**

#### **(1) Deposits and Investments**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-

## CITY OF MARCO ISLAND, FLORIDA

term investments with original maturities of three months or less from the date of acquisition.

The City's investment practices are governed by Chapter 280, Florida Statutes, and the City's investment policy Ordinance No. 02-19. These allow the City to invest in certificates of deposit; money market investments; obligations of and securities backed by the U.S. Treasury, its agencies and instrumentalities; repurchase agreements; banker's acceptances; prime commercial paper; state and government debt; fixed-income mutual funds; and the State Board of Administration.

Investments for the City, as well as for its component unit, are reported at fair value.

The pension trust funds may also invest in qualified public depositories, or other investments as determined by an investment advisor, retained by the Pension Boards, subject to guidelines prescribed by the Pension Boards. All plan investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price on the City's statement of net position date.

### **(2) Receivables and Payables**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All receivables are shown net of an allowance for doubtful accounts. An allowance for doubtful accounts is established based on the specific assessment of all amounts that remain unpaid following normal payment periods. All amounts deemed to be uncollectible are charged against the allowance for doubtful accounts in the period the determination is made.

Water and related wastewater charges to customers are based on actual water consumption. Consumption is determined on a monthly cycle basis. The City recognizes as revenue the estimated consumption as of September 30.

### **(3) Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of these items is recorded as expenditures when consumed rather than when purchased.

### **(4) Restricted Assets**

Certain proceeds of the City's enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. Based on the bond covenants, most of these are maintained in separate custodial accounts.

## CITY OF MARCO ISLAND, FLORIDA

### (5) Capital Assets

Capital assets include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items). They are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Proprietary fund capital assets are also recorded in their respective fund financial statements.

Capital assets, other than infrastructure assets, are defined by the City as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. The City reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements regardless of their amount.

Interest costs are recognized as an expense when incurred by proprietary funds on debt where proceeds were used to finance the construction of assets. Interest costs are recognized as an expenditure when incurred by governmental funds on debt where proceeds were used to finance the construction of assets.

In the case of the initial capitalization of general infrastructure, the City was able to estimate the historical cost through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the City constructs or acquires additional capital assets each period, including infrastructure, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to the capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, the City values these assets at the estimated acquisition value of the item at the date of its donation.

Property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

|                               |             |
|-------------------------------|-------------|
| Buildings and improvements    | 20-40 Years |
| Transmission and distribution | 20-40 Years |
| Infrastructure                | 10-40 Years |
| Vehicles and equipment        | 5-10 Years  |

### (6) Deferred Outflows/Inflows of Resources

The Statement of Net Position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to future periods and will not be recognized as expenditures until the future period to which it applies. The Statement of Net Position also includes a separate section, listed below total Liabilities, for deferred inflows of resources. Deferred inflows of resources represent a consumption of net position that applies to future periods and will not be recognized as revenue until the future period to which it applies.

The City includes deferred charges on refund debt as deferred outflows of resources in the Government-wide Statement of Net Position. A deferred charge on refunded debt is the difference between the

## CITY OF MARCO ISLAND, FLORIDA

carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the remaining life of the refunded (old) or the life of the refunding (new) debt.

Under GASB Statement No. 75, the following amounts not recognized in OPEB expense should be recognized and classified as either deferred outflows of resources or deferred inflows of resources related to OPEB accordingly: differences between expected and actual experience with regard to economic or demographic factors (differences between expected and actual experience) in the measurement of the total OPEB liability, changes of assumptions about future economic or demographic factors or of other inputs (changes of assumptions or other inputs), and deferred outflows (inflows) of resources from assumption changes and experience differences are amortized using a systematic and rational method over a closed period equal to the average remaining service lives of all plan participants.

The City also has deferred outflows and inflows related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the Plan's actuary which adjust the net pension liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five-year period.

### **(7) Compensated Absences**

It is the City's policy to permit employees to accumulate earned but unused personal leave. These amounts are accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Compensated absences are generally liquidated by the general and enterprise funds.

Full-time City employees earn from 160 to 224 hours annually, based upon years of service, and can accrue up to 720 hours. Sworn Police Officers under a collective bargaining agreement earn from 188 to 260 hours annually, based upon years of service, and can accrue up to 720 hours. City Firefighters under union contract earn from 216 to 360 hours annually, based upon years of service, and can accrue up to 936 hours. Upon termination, these employees are entitled to all accumulated earned leave hours paid out at the hourly rate.

### **(8) Long-term Obligations**

Long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as

## CITY OF MARCO ISLAND, FLORIDA

other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### **(9) Nature and Purpose of Classifications of Net Position/Fund Balances**

Net position is the result of assets and deferred outflows of resources less liabilities and deferred inflows of resources. The net position of the government-wide and proprietary funds are categorized as net investment in capital assets, reduced by accumulated depreciation and any outstanding debt incurred to acquire, construct or improve those assets excluding unexpended bond proceeds, restricted or unrestricted. The first category represents net position related to property, plant, equipment and infrastructure. The restricted category represents the balance of assets restricted by requirements of revenue bonds and other externally imposed constraints or by legislation in excess of the related liabilities payable from restricted assets. Unrestricted net position consists of the net position not meeting the definition of either of the other two components.

The City classifies fund balance in accordance with GASB Statement No. 54 *“Fund Balance Reporting and Governmental Fund Type Definitions.”* This Statement enhances the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

***Nonspendable fund balances*** include amounts that cannot be spent because they are either: (a) not in spendable form or (b) legally or contractually required to be maintained intact.

***Restricted fund balance*** amounts that are restricted to specific purposes either by: (a) constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation are classified as restricted fund balances.

***Committed fund balance*** amounts that can only be used for specific purposes pursuant to constraints imposed by the City Council through an ordinance or resolution, which are equally binding, are classified as committed fund balances.

***Assigned fund balance*** amounts that are constrained by the City’s intent to be used for specific purposes but are neither restricted nor committed are classified as assigned fund balances. Assignments are made by the City Manager based on Council direction through a resolution.

***Unassigned fund balance*** represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The General Fund is the only Fund allowed to have a positive unassigned fund balance.

When both restricted and unrestricted resources are available for use, it is the City’s policy to use restricted resources first, then unrestricted resources (committed, assigned and unassigned) as they are needed. When unrestricted resources (committed, assigned and unassigned) are available for use it is

## CITY OF MARCO ISLAND, FLORIDA

the City's policy to use committed resources first, then assigned, and then unassigned as they are needed but reserves the right to selectively defer the use of these funds.

### **(10) Financial Reserve Policy**

The City maintains an adequate General Fund balance to provide liquidity in the event of an economic downturn or natural disaster and management administers the Council's direction for an Emergency Reserve of 25% of the proposed fiscal year General Fund Operating Budget. This amount is included in the General Fund unassigned fund balance and represents \$5,722,122 of the \$13,338,794 unassigned fund balance at September 30, 2022.

### **(11) Net Position**

In the government-wide financial statements, the net investment in capital assets is capital assets net of related debt for the governmental activities and business-type activities, if applicable. Debt relating to capital assets is issued subsequently to the utility capital asset purchase in many instances, due to the nature of the utility capital projects with the septic tank replacement program. Capital assets are acquired using temporary financing which is later refunded when permanent bonds and notes are issued.

### **(F) Other Policies**

#### **(1) Property Tax Calendar**

The City levies property taxes each November 1, which become a lien on real and personal property located in the City. The assessment of all properties and the collection of all property taxes are made through the Property Appraiser and Tax Collector of Collier County, Florida. The tax levy is based on taxable assessed real and personal property values totaling \$11.8 billion for fiscal year 2022. Details of the tax calendar are presented below:

|                      |                                     |
|----------------------|-------------------------------------|
| Lien Date            | January 1, 2021                     |
| Levy Date            | November 1, 2021                    |
| Installment Payments |                                     |
| First Installment    | No Later Than June 30, 2021         |
| Second Installment   | No Later Than September 30, 2021    |
| Third Installment    | No Later Than December 31, 2021     |
| Fourth Installment   | No Later Than March 31, 2022        |
| Regular Payments     |                                     |
| Discount Periods     | November 2020 through February 2022 |
| No Discount Period   | After March 1, 2022                 |
| Delinquent Date      | April 1, 2022                       |

#### **(2) Property Tax Limitation**

The City is permitted by state statutes to levy taxes up to 10 mills of assessed value. The millage rate levied by the City for the fiscal year ended September 30, 2022, was 1.7088. Current tax collections for the City were approximately 96.5% of the total tax levy.

## CITY OF MARCO ISLAND, FLORIDA

### **(3) Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

### **(4) Encumbrances**

Budgets in governmental funds are encumbered upon issuance of purchase orders, contracts or other forms of legal commitments. While appropriations lapse at the end of the fiscal year, the succeeding year's budget ordinance specifically provides for the re-appropriation of year-end encumbrances.

## **2. Stewardship, Compliance and Accountability**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles and are prepared for all governmental funds. Prior to May 1, all agencies of the government submit requests for appropriations to the City Manager so that a budget may be prepared. During August, the proposed budget is presented to the City Council for review. The Council holds public hearings and a final budget must be prepared and adopted no later than September 30.

The appropriated budget is prepared by fund, function, and department. The City's department heads may make transfers of appropriations within a department. The City Council has authorized the City Manager to amend, modify or otherwise adjust the operating budget to a maximum limit of \$50,000 per fiscal year. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level.

Encumbrance accounting is employed in all City funds. Encumbrances (i.e., purchase orders, contracts) outstanding at year end lapse and do not constitute expenditures or liabilities however, any approved commitments will be re-appropriated and honored during the subsequent year.

Certain budgeted expenditures are subject to a "spending cap." These expenditures are limited to an increase from the prior year's budgeted expenditures of 3% plus the then-current Social Security cost-of-living adjustment. This limitation was amended and clarified in 2002 by voter referendum and in 2014 by Council Ordinance replacing the 2003 Council Resolution. The spending cap for the 2022 fiscal year, as adopted by City Council, was \$27,276,856. The final actual amount for the 2022 fiscal year was \$26,240,217, which was in accordance with the spending cap limit.

## **3. Deposits and Investments**

**Cash and Equivalents** include cash on hand, amounts in demand and time deposits and short-term Investments with original maturity of three months or less from the date acquired by the City. All of the City's deposits are held in qualified public depositories pursuant to State of Florida Statutes, Chapter 280, Security for Public Deposits Act. Under the Act, every qualified public depository shall deposit with the

**CITY OF MARCO ISLAND, FLORIDA**

Finance Director eligible collateral of the depository to be held subject to his or her order. All collateral must be deposited with an approved financial institution. Any potential losses to public depositors are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessments against other qualified public depositories of the same type as the depository in default.

**Investments** include a wide range of securities that the City is authorized to invest in, such as certificates of deposit, money market funds, U.S. Treasury obligations, State and U.S. Government Agencies and Enterprises, State and Local Government Series, the State Board of Administration Investment Pool (SBA), the Florida Municipal Investment Trust (FMIvT), mutual funds and repurchase agreements. The City's investment practices are governed by Chapter 280 and 218, Florida Statutes, City Code of Ordinances, Article VI, Section 2, the adopted investment policy, and various legal covenants related to outstanding bond issues. For all investments authorized by statute and policy, the City applies the "Prudent Person Rule" when developing investment strategies. The City uses only financial institutions qualified as public depositories by the State of Florida or "approved" security dealers to place its investments unless bond covenants specifically require other financial institutions to be used.

The FMIvT was created under the laws of the State of Florida to provide eligible units of local government with an investment vehicle to pool their surplus funds and to reinvest such funds in one or more investment portfolios under the direction and daily supervision of an investment advisor. The Florida League of Cities serves as the administrator, investment manager and secretary-treasurer of the Trust.

Throughout the fiscal year the City also utilizes Public Trust Advisors for individual investments it transacts throughout the year, with US Bank as its custodial agent. Public Trust Advisors and US Bank are recognized as the leading provider of investment advice and custodial services to municipalities throughout the United States.

As of September 30, 2022, the City and its component unit had the following deposits and investments:

| <u>Deposit and Investment Type</u> | <u>No Specific<br/>Maturity</u> | <u>Matures In<br/>Less Than<br/>One Year</u> | <u>Matures in<br/>1-5 Years</u> | <u>Matures in<br/>5-10 Years</u> | <u>Total<br/>(at Fair Value)</u> |
|------------------------------------|---------------------------------|--|---------------------------------|----------------------------------|----------------------------------|
| Deposits with Bank                 | \$ 50,292,309                   | -  | -                               | -                                | 50,292,309                       |
| Money Market Funds                 | 332,146                         | -  | -                               | -                                | 332,146                          |
| U.S. Government Securities         | -                               | -  | 9,632,092                       | -                                | 9,632,092                        |
| U.S. Government Agencies           | -                               | -  | 1,766,764                       | -                                | 1,766,764                        |
| State/Local Government Bonds       | -                               | -  | 2,746,761                       | -                                | 2,746,761                        |
| FMIvT                              | -                               | -  | 69,444,200                      | -                                | 69,444,200                       |
| Total Deposits and Investments     | \$ 50,624,455                   | -  | 83,589,817                      | -                                | 134,214,272                      |

Investments and cash held on deposit with banks for the discretely presented component unit as of September 30, 2022 is \$2,837,513 and are included above.

Fair Value Measurement: The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Securities classified in Level 1 of the fair value hierarchy are

**CITY OF MARCO ISLAND, FLORIDA**

valued using prices quoted in active markets for those securities. Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities’ relationship to benchmark quoted prices.

The City’s investments at September 30, 2022, are reported as follows:

| Investments by fair value level                   | Amount               | Fair Value Measurements Using                                  |   |   |
|---|----------------------|--|---|---|
|   |                      | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| United States Treasury Securities                 | \$ 9,632,092         | \$ -   | \$ 9,632,092                                  | \$ -                                      |
| United States Government Agencies                 | 1,766,764            | -  | 1,766,764                                     | -   |
| State/Local Government Bonds                      | 2,746,761            | -  | 2,746,761                                     | -   |
| Total investments by fair value level             | <u>\$ 14,145,617</u> | <u>\$ -</u>  | <u>\$ 14,145,617</u>                          | <u>\$ -</u>                               |
| Investments measured at the net asset value (NAV) |                      |  |   |   |
| FMIvT 0-2 Year High Quality Bond                  | \$ 30,488,540        |  |   |   |
| FMIvT 1-3 Year High Quality Bond                  | 38,955,660           |  |   |   |
| Total investments measured at NAV                 | <u>69,444,200</u>    |  |   |   |
| Total investments measured at fair value          | <u>\$ 83,589,817</u> |  |   |   |

**Interest Rate Risk:** As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits the City's investment portfolio, excluding investments held for debt service requirements, to maturities of five years or less. The FMIvT uses a weighted average days to maturity (WAM) method. A portfolio’s WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes. The FMIvT 0-2 Year High Quality Bond Fund has a WAM of 0.70 in years and the FMIvT 1-3 Year High Quality Bond Fund has a WAM of 1.50 in years. The investment maturities of the pension trust funds are not limited.

**Credit Risk:** While authorized by policy, the City has no investments in commercial paper, bankers’ acceptances, or corporate bonds. Federal agencies carry only an implicit guarantee from the government and are not full faith and credit investments, such as U.S. Treasury Bills and Bonds.

The City holds investments with the Florida Municipal Investment Trust (FMIvT), an external investment pool under GASB 40. These investments are held in 0 to 2 year and 1 to 3 year high quality bonds with a AAA Standard & Poor’s rating. External financial statements are available at [www.floridaleagueofcities.com/finance](http://www.floridaleagueofcities.com/finance). The City also uses Public Trust Advisors for its released debt service reserves which were required to be set aside by the individual debt issues, with US Bank serving in a third-party custodial capacity. The investments include both U.S. Government Securities, State and Local Bonds, and Money Market Funds.

In its investment policy, the City specifies that in satisfying the investment objectives of safety of capital, liquidity of funds, and investment income, the objective will be to mitigate credit risk and interest rate risk. Potential market risk will be limited as the City’s cash needs are evaluated.

**Concentration of Credit Risk:** The City’s investment policy allows the following investment types and limitations:

## CITY OF MARCO ISLAND, FLORIDA

| Investment Type   | Maximum Portfolio Allocation | Maximum Investment with any Institution |
|---|------------------------------|---|
| Direct obligations of the U.S. Treasury                               | 100%                         | none                                    |
| Securities backed by the full faith and credit of the U.S. Government | 35%                          | none                                    |
| Securities backed by federal agencies                                 | 75%                          | 50% of portfolio                        |
| Agency-issued mortgage backed securities                              | 35%                          | none                                    |
| Repurchase agreements   | 50%                          | none                                    |
| Certificates of Deposit   | 35%                          | none                                    |
| Bankers acceptances   | 25%                          | \$1,000,000                             |
| Prime commercial paper  | 25%                          | \$1,000,000                             |
| State/Local Government taxable and tax-exempt debt                    | 25%                          | none                                    |
| Dollar denominated money market mutual funds                          | 25%                          | none                                    |
| Fixed-income mutual funds   | 25%                          | none                                    |
| Local Government Surplus Funds Trust                                  | 100%                         | none                                    |

**Custodial Credit Risk:** All of the City’s public deposits are held in qualified public depositories pursuant to Florida Statutes, Chapter 280. Under the Act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits, times the depository's collateral pledging level. The pledging level may range from 25% to 200% depending upon the depository’s financial condition and establishment period. All collateral must be deposited with an approved financial institution. Any losses to public depositors are covered by applicable deposit insurance, sale of securities pledged as collateral, and, if necessary, assessments against other qualified public depositories of the same type as the depository in default. Investment securities are purchased on a delivery-vs-payment basis through third party safekeeping accounts.

**Foreign Currency Risk:** The City’s investment policy does not allow investment of funds in securities denominated in a foreign currency.

The Firefighters’ and Police Officers’ Pension Plans, governed by the Fire and Police Pension Boards, have a long-term growth strategy. The Pension Trust Fund investments are determined by the Board of Trustees of each pension trust plan. The portfolio of the Fire Fighters’ Pension Trust Fund has a target allocation of 60% common stocks, 30% bond funds, and 10% private real estate funds, with a maximum of 10% of the portfolios being invested in foreign investments. The portfolio of the Police Officers’ Pension Trust Fund has a target allocation of 65% common stocks, 25% bond funds, and 10% private real estate funds, with a maximum of 10% of the portfolios being invested in foreign investments. The investment policy requires that all fixed income securities must hold a rating in one of the three highest classifications by a major rating service.

As of September 30, 2022, the Pension Plans had the following deposits and investments:

| Deposit and Investment Type           | No Specific Maturity | Matures In<br>Less Than<br>One Year | Matures in<br>1-5 Years | Matures in<br>5-10 Years | Matures in<br>10+ Years | Total<br>(at Fair Value) |
|---------------------------------------|----------------------|-------------------------------------|-------------------------|--------------------------|-------------------------|--------------------------|
| Deposits with Bank                    | \$ 59,101            | -                                   | -                       | -                        | -                       | 59,101                   |

**4. Receivables**

Receivables as of year-end for the City’s individual major funds, non-major funds, and internal service fund, including the applicable allowances for uncollectible accounts, are as follows:

|                                   | Governmental Activities |                  |               | Business-type Activities | Total             |
|-----------------------------------|-------------------------|------------------|---------------|--------------------------|-------------------|
|                                   | General                 | Capital Projects | Nonmajor      | Water and Sewer          |                   |
| Receivables                       |                         |                  |               |                          |                   |
| Accounts                          | \$ 2,151,435            | -                | -             | 3,056,740                | 5,208,175         |
| Assessments                       | -                       | -                | -             | 7,413,313                | 7,413,313         |
| Due from other governments        | 605,036                 | 1,032,530        | 38,330        | -                        | 1,675,896         |
| Assessments interest receivable   | -                       | -                | -             | 17,865                   | 17,865            |
| Interest and dividends receivable | -                       | -                | -             | 1,942,378                | 1,942,378         |
| Gross receivables                 | 2,756,471               | 1,032,530        | 38,330        | 12,430,296               | 16,257,627        |
| Less allowance for uncollectibles | (2,096,392)             | -                | -             | (32,077)                 | (2,128,469)       |
| Net total receivables             | <u>\$ 660,079</u>       | <u>1,032,530</u> | <u>38,330</u> | <u>12,398,219</u>        | <u>14,129,158</u> |

**5. Inter-fund Receivables, Payables and Transfers**

For the year ended September 30, 2022, the inter-fund transfers were as follows:

| Transfer Out          | Transfer In       |                  |                  |
|-----------------------|-------------------|------------------|------------------|
|                       | Debt Service      | Capital Projects | Total            |
| General               | \$ 922,475        | 4,328,108        | 5,250,583        |
| Nonmajor Funds        | -                 | 46,482           | 46,482           |
| Water & Sewer Utility | 62,501            | 116,723          | 179,224          |
| Total                 | <u>\$ 984,976</u> | <u>4,491,313</u> | <u>5,476,289</u> |

Transfers are used to: (1) move revenues from the fund with collection authorization to the debt service fund as debt service principal and interest payments become due; (2) move unrestricted general fund revenues to finance its pay as you go capital projects program; and (3) move other funds that the government must account for in other funds in accordance with budgetary authorizations.

**CITY OF MARCO ISLAND, FLORIDA**

**6. Capital Assets**

Capital asset balances and activity for the year ended September 30, 2022, were as follows:

|   | <u>Beginning</u>      | <u>Increases</u>    | <u>(Decreases)</u> | <u>Ending Balances</u> |
|---|-----------------------|---------------------|--------------------|------------------------|
| <b>Governmental Activities</b>                            |                       |                     |                    |                        |
| Capital assets not being depreciated:                     |                       |                     |                    |                        |
| Land  | \$ 15,363,360         | -                   | -                  | 15,363,360             |
| Construction in progress                                  | 4,829,128             | 22,377,719          | (4,186,966)        | 23,019,881             |

The City's outstanding notes from direct borrowings and direct placements related to governmental activities of \$4,654,510 contain a provision that in an event of default, outstanding amounts become immediately due if the City is unable to make payment. The outstanding notes from direct borrowings related to business-type activities of \$91,052,057 contain (1) a provision that in an event of default, the timing of repayment of outstanding amounts become immediately due if pledged revenues during the year are less than 120 percent of debt service coverage due in the following year and (2) a provision that if the City is unable to make payment, outstanding amounts are due immediately. The City's outstanding notes from direct borrowings related to business-type activities of \$91,052,057 contain a subjective acceleration clause that allows the lender to accelerate payment of the entire principal amount to become immediately due if the lender determines that a material adverse change occurs.

**Governmental Activities – Bond and Note Payable**

On June 17, 2014, the City issued a capital improvement note for the costs associated with the replacement of the Smokehouse Bay Bridge. The original amount of the capital improvement note was \$6,045,000 and secured by pledged revenues, which consist of non-ad valorem revenues budgeted, appropriated, and deposited. The interest rate on the note is fixed at 2.46 percent over 15 years. As of September 30, 2022, \$3,495,000 was outstanding. Annual debt service requirements to maturity for the bond are as follows:

| <u>Fiscal Year</u> | <u>Principal</u>    | <u>Interest</u> |
|--------------------|---------------------|-----------------|
| 2023               | \$ 400,000          | 81,057          |
| 2024               | 410,000             | 71,094          |
| 2025               | 420,000             | 60,885          |
| 2026               | 430,000             | 50,431          |
| 2027               | 440,000             | 39,730          |
| 2028-2030          | 1,395,000           | 51,966          |
| Total              | <u>\$ 3,495,000</u> | <u>355,163</u>  |

On August 31, 2021, the City issued a public improvement bond for the costs associated with the construction of the new Fire Station 50 building and the Veterans Community Park project. The original amount of the public improvement bond was \$11,910,000 and secured by pledged revenues, which consist of half-cent sales tax, communications services tax, and state revenue sharing amounts budgeted, appropriated, and deposited. The average coupon rate on the note is 2.66 percent over 20 years. As of

**CITY OF MARCO ISLAND, FLORIDA**

September 30, 2022, \$11,910,000 was outstanding. Annual debt service requirements to maturity for the bond are as follows:

| <u>Fiscal Year</u> | <u>Principal</u> | <u>Interest</u> |
|--------------------|------------------|-----------------|
| 2023               | \$ 390,000       | 374,744         |
| 2024               | 415,000          | 354,619         |

| Total                                   | \$ 1,278,504     | \$ 194,031      | \$ 1,472,535 |

**Business Activities - Water and Sewer**

On December 5, 2006, the City issued revenue bonds for business-type activities to pay the costs of constructing certain additions, extensions, supplements and replacements to the City's water and wastewater utility system. The original amount of the revenue bonds was \$5,500,000, secured by a senior lien pledge on net revenues of the water and sewer fund. The bonds are issued as 15-year serial bonds with varying amounts of principal maturing each year from \$385,441 to \$446,412. The interest rate on bonds is fixed at 3.74%. As of September 30, 2022, \$876,730 was outstanding. Annual debt service requirements to maturity for the revenue bonds are as follows:

| <u>Fiscal Year</u> | <u>Principal</u> | <u>Interest</u> |
|--------------------|------------------|-----------------|
| 2023               | \$ 430,318       | 30,547          |
| 2024               | 446,412          | 10,325          |
| Total              | \$ 876,730       | 40,872          |

**CITY OF MARCO ISLAND, FLORIDA**

On November 1, 2016, the City issued series 2016 in the amount of \$38,520,000 million to partially refund the City’s utility system revenue bonds, series 2010A. Interest rates on the bonds vary from 3.00% to 5.00% over 20 years. The new bonds were issued on parity with City’s Utility Revenue Bond, Series 2006, the Tax-Exempt Utility System Improvement and Refunding Revenue Bonds, Series 2010A, not refunded with proceeds of the Series 2016 Bonds. The original amount of the revenue bonds was \$38,520,000 with a premium of \$4,621,931. The bonds are secured and payable solely from the net revenues of the water and sewer system. As of September 30, 2022, \$37,190,000 of the principal was outstanding for the 2016 Series. Annual debt service requirements for the revenue bonds are as follows:

| <b>Fiscal Year</b> | <b>Principal</b>     | <b>Interest</b>   |
|--------------------|----------------------|-------------------|
| 2023               | \$ 1,400,000         | 1,531,669         |
| 2024               | 1,465,000            | 1,460,044         |
| 2025               | 1,385,000            | 1,388,794         |
| 2026               | 1,450,000            | 1,317,919         |
| 2027               | 1,520,000            | 1,243,669         |
| 2028-2032          | 8,825,000            | 4,978,694         |

| 2038-2041          | 10,250,000           | 768,731           |
| <b>Total</b>       | <b>\$ 37,190,000</b> | <b>15,634,897</b> |

On May 15, 2011, the City received funding under the State of Florida Department of Environmental Protection Revolving Loan Program in the amount of \$5,000,000 to fund the construction of a high service pump station, a 4 MG water tank, and an operations building all associated with drinking water. In 2012, an additional \$309,320 was received. Funds are secured by utility system revenues and impact fees. Pledged revenue is a junior lien pledge of system revenue. The interest rate is fixed at 2.66% on the original loan and 2.81% on the additional loan amount. As of September 30, 2022, the City had \$2,767,348 outstanding. Annual debt service requirements for the state revolving funding to maturity are as follows:

| <b>Fiscal Year</b> | <b>Principal</b>    | <b>Interest</b> |
|--------------------|---------------------|-----------------|
| 2023               | \$ 275,898          | 72,028          |
| 2024               | 283,310             | 64,616          |
| 2025               | 290,922             | 57,004          |
| 2026               | 298,738             | 49,188          |
| 2027               | 306,764             | 41,162          |
| 2028-2031          | 1,311,716           | 79,988          |
| <b>Total</b>       | <b>\$ 2,767,348</b> | <b>363,986</b>  |

On November 6, 2003, the City issued revenue bonds for business-type activities for: (1) the acquisition of certain water production, transmission, wastewater treatment and disposal facilities, and (2) the improvement of certain assets within these facilities. The original amount of the revenue bonds was \$101,115,000, in addition to a premium paid on the bonds in the amount of \$1,221,130. The bonds are secured by pledged revenues which consist of a senior lien pledge on net revenues of the water and sewer fund and any water and sewer capital facility fees. The City has refunded the remaining balance of this issue through the utility system refunding revenue bonds 2011 Series and 2013 Series.

On August 23, 2011, the City issued series 2011 in the amount of \$26,253,513 million to partially refund the City’s utility system revenue bonds, series 2003. The fixed interest rate of Series 2011 is 2.769%

**CITY OF MARCO ISLAND, FLORIDA**

over 10 years. The original amount of the revenue bonds was \$26,253,513 with a discount of \$2,996,740. The bonds are secured and payable solely from the net revenues of the water and sewer system. The bond was fully paid during fiscal year 2022.

On October 1, 2013, the City issued Series 2013 in the amount of \$61,995,000 million to refund the remainder of the city’s utility system revenue bond, Series 2003 and Series 2008. The average interest rate of Series 2013 is 5.0% over 20 years. The new bonds were issued on parity with the utility system revenue bonds series 2006, utility system improvement and refunding revenue bonds series 2010A, utility system refunding revenue bonds series 2010B, and utility system refunding revenue bonds series 2011. The original amount of the revenue bonds was \$61,995,000 with a premium of \$2,956,496. The bonds are secured and payable solely from the net revenues of the water and sewer system.

On March 27, 2020, the City issued Series 2020 in the amount of \$59,180,000 million to refund the remainder of the city’s utility system revenue bond, Series 2013. The average interest rate of Series 2020 is 1.88% over 13 years. As of September 30, 2022, \$57,905,000 of the principal was outstanding on the 2020 Series, and \$8,510,000 on the unrefunded portion of the 2013 Series. Annual debt service requirements to maturity for the revenue bonds are as follows:

| Fiscal Year | Principal     | Interest  |
|-------------|---------------|-----------|
| 2023        | \$ 1,025,000  | 1,077,831 |
| 2024        | 1,040,000     | 1,058,441 |
| 2025        | 5,630,000     | 995,810   |
| 2026        | 5,745,000     | 888,998   |
| 2027        | 5,205,000     | 786,178   |
| 2028-2032   | 27,515,000    | 2,414,122 |
| 2033-2034   | 11,745,000    | 221,651   |
| Total       | \$ 57,905,000 | 7,443,030 |

| Fiscal Year | Principal    | Interest |
|-------------|--------------|----------|
| 2023        | \$ 4,150,000 | 321,750  |
| 2024        | 4,360,000    | 109,000  |
| Total       | \$ 8,510,000 | 430,750  |

**Sewer Assessments**

In order to fund construction of the City’s Septic Tank Replacement Program (STRP) wastewater utility expansion in certain areas of the City, the City has issued two types of Special Assessment Improvement Debt. The City is acting as agent in the collection of the special assessments levied and in the payment of the Special Assessment Bonds outstanding. Such bonds are collateralized by the special assessments levied against the benefited property owners. As part of its agreement with the State of Florida Department of Environmental Protection, the City agreed to a covenant to budget and appropriate legally available funds in the event collection assessments are insufficient and thus the City has a legal obligation to cover deficiencies in the event of default for loans obtained through the State Revolving-Loan Fund (SRF) Program. Special assessment debt obtained through other non-SRF bank loans are backed solely by assessment revenue. The City’s obligation for the non-SRF bank loan special assessment debt is limited to payments on behalf of those property owners who have entered into deferred payment agreements with the City and the City has not made any indication that it has a legal or moral obligation

**CITY OF MARCO ISLAND, FLORIDA**

for any other portion of these non-SRF bank loan debts.

On March 7, 2008, the City issued special assessment revenue bonds to pay the costs of the subordinate wastewater improvement project for the Tigertail District in the amount of \$2,321,886 and is secured by capacity and construction assessments on individual properties within the District. The bonds have varying amounts of principal maturing each year ranging from \$101,833 to \$164,258. The interest rate on the bonds is fixed at 4.01%. As of September 30, 2022, \$894,099 was outstanding. Annual debt service requirements for the revenue bonds are as follows:

| <u>Fiscal Year</u> | <u>Principal</u>  | <u>Interest</u> |
|--------------------|-------------------|-----------------|
| 2023               | \$ 134,585        | 33,638          |
| 2024               | 140,057           | 28,125          |
| 2025               | 145,682           | 22,248          |
| 2026               | 151,674           | 16,204          |
| 2027               | 157,841           | 9,914           |
| 2028               | 164,260           | 3,367           |
| <b>Total</b>       | <b>\$ 894,099</b> | <b>113,496</b>  |

On March 7, 2008, the City issued special assessment revenue bonds to pay the costs of the wastewater improvement project for the South Barfield District. The original amount of the revenue bonds was \$732,378 and is secured by capacity and construction assessments on individual properties within the District. The bonds have varying amounts of principal maturing each year ranging from \$32,121 to \$51,811. The interest rate on the bonds is fixed at 4.01%. As of September 30, 2022, \$282,020 was outstanding. Annual debt service requirements for the revenue bonds to maturity are as follows:

| <u>Fiscal Year</u> | <u>Principal</u>  | <u>Interest</u> |
|--------------------|-------------------|-----------------|
| 2023               | \$ 42,451         | 10,610          |
| 2024               | 44,177            | 8,871           |
| 2025               | 45,952            | 7,018           |
| 2026               | 47,842            | 5,111           |
| 2027               | 49,787            | 3,127           |
| 2028               | 51,811            | 1,062           |
| <b>Total</b>       | <b>\$ 282,020</b> | <b>35,799</b>   |

The City received additional funding under the State of Florida Department of Environmental Protection Revolving Loan Program in 2007 through 2013. Funds are utilized for neighborhood construction of the Septic Tank Replacement Program and are secured by assessments against individual properties, with a back-up covenant to budget and appropriate additional funds as necessary. Interest rates range from 2.6% to 3.8%. As of September 30, 2022, \$21,752,918 was outstanding. Annual debt service requirements for the state revolving funding are as follows:

**CITY OF MARCO ISLAND, FLORIDA**

| <u>Fiscal Year</u> | <u>Principal</u>     | <u>Interest</u>  |
|--------------------|----------------------|------------------|
| 2023               | \$ 2,360,855         | 632,906          |

The revenue bonds are for \$1,450,000 and are secured by capacity assessments on individual properties within the District. The bonds have varying amounts of principal maturing each year ranging from \$62,600 to \$217,379. The interest rate on the bonds is fixed at 4.17%. As of September 30, 2022, \$772,433 was outstanding. Annual debt service requirements for the revenue bonds are as follows:

| <u>Fiscal Year</u> | <u>Principal</u>  | <u>Interest</u> |
|--------------------|-------------------|-----------------|
| 2023               | \$ 83,324         | 30,473          |
| 2024               | 86,799            | 26,926          |
| 2025               | 90,418            | 23,231          |
| 2026               | 94,189            | 19,382          |
| 2027               | 98,116            | 15,372          |
| 2028-2030          | <u>319,587</u>    | <u>20,351</u>   |
| Total              | \$ <u>772,433</u> | <u>135,735</u>  |

On August 1, 2013, the City issued special assessment revenue bonds for business-type activities for the Gulfport District. The revenue bonds are for \$1,430,000 and are secured by capacity assessments on individual properties within the District. The bonds have varying amounts of principal maturing each year ranging from \$75,000 to \$115,000. The interest rate on the bonds is fixed at 3.6%. As of September 30, 2022, \$725,000 was outstanding. Annual debt service requirements for the revenue bonds are as

**CITY OF MARCO ISLAND, FLORIDA**

follows:

| <u>Fiscal Year</u> | <u>Principal</u>  | <u>Interest</u> |
|--------------------|-------------------|-----------------|
| 2023               | \$ 95,000         | 24,390          |
| 2024               | 95,000            | 20,970          |
| 2025               | 100,000           | 17,460          |
| 2026               | 105,000           | 13,770          |
| 2027               | 105,000           | 9,990           |
| 2028-2029          | <u>225,000</u>    | <u>8,190</u>    |
| Total              | \$ <u>725,000</u> | <u>94,770</u>   |

On August 1, 2013, the City issued special assessment revenue bonds for business-type activities for the East Winterberry North District. The revenue bonds are for \$395,000 and are secured by capacity assessments on individual properties within the District. The bonds have varying amounts of principal maturing each year ranging from \$20,000 to \$35,000. The interest rate on the bonds is fixed at 3.6%. As of September 30, 2022, \$205,000 was outstanding. Annual debt service requirements for the revenue bonds are as follows:

| <u>Fiscal Year</u> | <u>Principal</u>  | <u>Interest</u> |
|--------------------|-------------------|-----------------|
| 2023               | \$ 25,000         | 6,930           |
| 2024               | 25,000            | 6,030           |
| 2025               | 30,000            | 5,040           |
| 2026               | 30,000            | 3,960           |
| 2027               | 30,000            | 2,880           |
| 2028-2029          | <u>65,000</u>     | <u>2,430</u>    |
| Total              | \$ <u>205,000</u> | <u>27,270</u>   |

**8. Risk Management**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. Effective October 1, 2004, the City became self-insured for the following types of risks:

1. Workers' Compensation
2. Public Officials' Liability
3. General and Property Liability
4. Automobile Liability
5. Crime and Theft Liability

Prior to October 1, 2004, the City was insured against these losses with a commercial insurance agreement with the Florida League of Cities, Inc. under a retrospectively rated policy. Premiums were accrued based upon the ultimate cost-to-date of the City's experience for each type of risk. The City entered into an agreement with an insurance administrator to reduce the potential for significant risk. The agreement has a deductible per claim of \$350,000 for workers' compensation, \$10,000 for crime and \$100,000 for third party liability. Additionally, the agreement has a stop-loss policy which caps the aggregate annual loss for the City at \$1,200,000. The stop loss covers excess worker's compensation, general, law enforcement, automobile, public officials and employment practices liability. Settlements have not exceeded coverage for each of the past three years.

**CITY OF MARCO ISLAND, FLORIDA**

Liabilities are reported when it is probable that a loss occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of these factors.

Changes in the balances of claims liabilities during the prior two fiscal years are as follows:

|   |                     |
|---|---------------------|
| Estimated unpaid claims, October 1, 2020    | \$ 589,863          |
| Incurred claims (including IBNRs)           | 1,501,602           |
| Claim payments                              | <u>(1,572,154)</u>  |
| Estimated unpaid claims, September 30, 2021 | 519,311             |
| Incurred claims (including IBNRs)           | 2,907,082           |
| Claim payments                              | <u>(1,850,008)</u>  |
| Estimated unpaid claims, September 30, 2022 | \$ <u>1,576,386</u> |

**9. Contingent Liabilities**

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

**10. Commitments**

The City has numerous active construction projects. As of September 30, 2022, the City's commitments with contractors are as follows:

| <u>Project</u>   | <u>Contractor</u>                        | <u>Contract Amount</u> | <u>Completed to<br/>Date</u> | <u>Balance</u>    |
|--|--|------------------------|------------------------------|-------------------|

CITY OF MARCO ISLAND, FLORIDA

**11. Employee Retirement Systems and Pensions Plans**

**(a) The City of Marco Island Firefighters' Pension Plan**

**Plan Description**

Plan Administration: The City administers a single-employer, defined benefit pension plan (the "Plan") that covers all fulltime firefighters hired after January 1, 1996. The Plan was created by Ordinance of the City Council which grants the authority to establish and amend the benefit terms to the Board of Trustees, subject to City Council approval. Management of the Plan is vested in the Board of Trustees, which consists of five members, two of whom are current or retired members of the Plan, one is a City resident, one is a City employee, and one of whom is appointed by the City Council from non-members of the Plan. The Plan does not prepare separate financial statements and is included as part of the pension trust funds in the City's financial reporting entity since it is not legally separate from the City.

Plan Membership: As of October 1, 2020, (date of the latest annual actuarial valuation), employee membership data related to the Plan were:

|   |       |
|---|-------|
| Inactive Plan Members or Beneficiaries Currently Receiving Benefits | 2     |
| Inactive Plan Members Entitled to But Not Yet Receiving Benefits    | 2     |
| Active Plan Members   | 37    |
|   | <hr/> |
|   | 41    |

Benefits Provided: The Plan provides retirement benefits, deferred allowances, and death and disability benefits. A participant may retire after reaching the age of 55, with six or more years of service, or after accumulating twenty-five years of service with the City, regardless of age.

Retired employees or their beneficiaries are entitled to pension payments for the longer of ten years or the retirees' remaining life equal to 3% of their final five-year average compensation times the number of years of credited service. The final five-year average compensation is the average annual compensation of the five highest years within the last ten years of service.

Compensation includes overtime, but excludes lump-sum payments of unused leave. Maximum annual pension payments to retirees are the lesser of \$90,000 or 100% of the average aggregate compensation for the three consecutive calendar years during which the firefighter was an active member and had his/her highest aggregate compensation. An additional supplemental benefit is also payable in the monthly amount of \$3 multiplied by credited service.

Early retirement is available at age 50, with six years of credited service, with the benefit reduced by 3% per year for each year early. Delayed retirement is permitted, with the benefit calculated the same as the normal retirement benefit, but based on credited service and average final compensation as of the actual retirement date.

Participants are not vested until they reach six years of service, at which time they become 100% vested. Terminated non-vested employees receive refunds of their accumulated member contribution only. Terminated vested employees receive their vested accrued benefit payable at early (after reduction) or

## CITY OF MARCO ISLAND, FLORIDA

normal retirement.

Pension provisions include disability benefits, whereby a disabled employee is entitled to receive the greater of the normal retirement benefits or a percentage of the five-year average annual compensation (42% if service incurred or 25% if non-service incurred). Pension provisions also include death benefits, whereby the surviving spouse is entitled to receive the vested pension benefit over ten years. Plan amendments are initiated by the Pension Board, and adopted by City Ordinance, after the required public hearings. The cost of administering the Plan is financed by contributions made to the Plan.

Benefit terms provide for a 3% annual cost-of-living adjustment to each member's retirement allowance subsequent to the member's retirement date.

Contributions: The City Ordinance grants the Board of Trustees authority to establish and amend the contribution requirements of the City and active plan members. The Board establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members. For the year ended September 30, 2022 active member contribution rate was 1%, which the City contributes based on the collective bargaining agreement, and the City's contribution rate was 41.42%. The State of Florida contributes casualty insurance premium taxes pursuant to Chapter 185, Florida Statutes, and the City contributes the required remaining balance, as determined by the actuary. The City recognized these on-behalf payments from the State as revenues and expenditures in the governmental fund financial statements.

The City makes periodic contributions totaling 100% of the actuarially determined amount (after state contributions) annually to the Plan. An actuarial valuation of the Plan is to be completed at least once every two years. Contributions for the fiscal year ended September 30, 2022, were based on actuarial computations performed in 2021, for the actuarial report as of October 1, 2020.

### Net Pension Liability (Asset) of the City

The components of the net pension liability(asset) of the City at September 30, 2022, were as follows:

|   |                       |
|---|-----------------------|
| Total pension liability   | \$ 24,834,525         |
| Plan fiduciary net position   | <u>29,592,828</u>     |
| City's net pension liability (asset)  | \$ <u>(4,758,303)</u> |
| Plan fiduciary net position as a percentage of<br>the total pension liability | 119.16%               |

The required schedule of changes in the City's net pension liability(asset) and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of October 1, 2021 with update procedures performed by the actuary to roll forward to the total pension liability

## CITY OF MARCO ISLAND, FLORIDA

measured as of September 30, 2022. The following actuarial assumptions, applied to all periods included in the measurement:

|                           |  |
|---------------------------|--|
| Inflation                 | 2.5%   |
| Salary increases          | 7.5% to 13.0% based on service, including inflation                |
| Investment rate of return | 7.0 %, net of pension plan investment expense, including inflation |

Mortality rates were based on the Pub-2010 Headcount Weighted Safety Table for Males or Females, using scale MP-2018.

The actuarial assumptions used in the October 1, 2020 valuation were based on the results of an actuarial experience study for the period October 1, 2020 – September 30, 2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2022 are: Domestic Equity Securities – 8.28%, International Equity Securities, – (1.83%), Fixed Income Securities – (0.12%), and Real Estate – 9.30%.

Discount rate: The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The discount rate of 7.00 percent was the single rate which, when applied to all projected benefit payments, resulted in the same present value of benefit payments when the above discussed calculations are combined.

Changes in the Net Pension Liability of the City: The changes in the components of the net pension liability(asset) of the City for the year ended September 30, 2022, were as follows:

**CITY OF MARCO ISLAND, FLORIDA**

|   | Total Pension<br>Liability<br>(a) | Plan Fiduciary<br>Net Position<br>(b) | Net Pension<br>Liability(Asset)<br>(a) - (b) |
|---|-----------------------------------|---------------------------------------|--|
| <b>Balances at 9/30/21</b>                                    | \$ 23,073,278                     | \$ 25,198,827                         | \$ (2,125,549)                               |

The Plan's fiduciary net position as a percentage of the total pension liability 119.2%

The required schedule of changes in the City's net pension liability(asset) and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the net pension liability(asset) to changes in the discount rate: The following presents the net pension liability(asset) of the City, calculated using the discount rate of 7.00 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

|                                     | 1% Decrease<br>(6.0%) | Current<br>Discount Rate<br>(7.0%) | 1% Increase<br>(8.0%) |
|-------------------------------------|-----------------------|------------------------------------|-----------------------|
| City's net pension liability(asset) | \$ (1,959,069)        | \$ (4,758,303)                     | \$ (7,018,800)        |

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as October 1, 2020 and the current sharing pattern of costs between employer and employee.

**Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

For the year ended September 30, 2022, the City recognized pension expense of \$660,270. At September 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**CITY OF MARCO ISLAND, FLORIDA**

|  | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |
|--|--------------------------------------|-------------------------------------|
| Differences between expected and actual experience                               | \$ 503,095                           | \$ 1,553,730                        |
| Changes in assumptions   | -                                    | 562,277                             |
| Net difference between projected and actual earnings on pension plan investments | -                                    | 1,704,762                           |
| City contributions subsequent to the measurement date                            | <u>1,641,423</u>                     | <u>-</u>                            |
| Total  | \$ <u>2,144,518</u>                  | \$ <u>3,820,769</u>                 |

City contributions subsequent to the measurement date of \$1,641,423 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending September 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

|                          |                       |
|--------------------------|-----------------------|

| Total                    | \$ <u>(3,317,674)</u> |

**(b) The City of Marco Island Police Officers' Pension Plan**

**Plan Description**

Plan Administration: In 2005, the City established and currently administers a single-employer, defined benefit pension plan (the Plan) that covers all full-time sworn police officers. The Plan was created by Ordinance of the City Council which grants the authority to establish and amend the benefit terms to the Board of Trustees, subject to City Council approval. Management of the Plan is vested in the Board of Trustees, which consists of five members, two of whom are current or retired members of the Plan, one is a City resident, one is a City employee, and one of whom is appointed by the City Council from non-members of the Plan. The Plan does not prepare separate financial statements and is included as part of the pension trust fund in the City's financial reporting entity since it is not legally separate.

Plan Membership: As October 1, 2021, pension plan membership consisted of the following:

|   |           |
|---|-----------|
| Inactive Plan Members or Beneficiaries Currently Receiving Benefits | 24        |
| Inactive Plan Members Entitled to But Not Yet Receiving Benefits    | 27        |
| Active Plan Members   | <u>37</u> |
|   | <u>88</u> |

Benefits Provided: The Plan provides retirement benefits, deferred allowances, and death and disability benefits. A participant may retire after reaching the age of 55, with six or more years of service, or accumulating twenty-five years of service with the City, regardless of age.

Retired employees or their beneficiaries are entitled to pension payments for the longer of ten years or

## CITY OF MARCO ISLAND, FLORIDA

the retirees' remaining life equal to 3% of their final five-year average compensation times the number of years of credited service. The final five-year average compensation is the average annual compensation of the five highest years within the last ten years of service.

Compensation includes overtime of up to 300 hours annually and lump-sum payments of unused leave, but excludes pay for special duty or extra-details. An additional supplemental benefit is also payable in the monthly amount of \$3, multiplied by credited service.

Early retirement is available at age 50, with six years of credited service, with the benefit reduced by 3% per year for each year early.

Participants are not vested until they reach six years of service, at which time they become 100% vested. Terminated non-vested employees receive refunds of their accumulated member contribution only. Terminated vested employees receive their vested accrued benefit payable at normal retirement.

Pension provisions include disability benefits, whereby a disabled employee is entitled to receive the greater of the normal retirement benefits or a percentage of the five-year average annual compensation (42% if service incurred or 25% if non-service incurred, provided the employee has at least 8 years of credited service). Pension provisions also include death benefits, whereby the surviving spouse is entitled to receive the vested pension benefit over ten years. Plan amendments are initiated by the Pension Board, and adopted by City Ordinance, after the required public hearings. The cost of administering the Plan is financed by contributions made to the Plan.

Benefit terms provide for a 3% annual cost-of-living adjustment to each member's retirement allowance subsequent to the member's retirement date.

Contributions: The City Ordinance grants the Board of Trustees authority to establish and amend the contribution requirements of the City and active plan members. The Board establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members. For the year ended September 30, 2022, the active member contribution rate was 0.5%, which the City contributes based on the collective bargaining agreement, and the City's contribution rate was 20.95%. The State of Florida contributes casualty insurance premium taxes pursuant to Chapter 185, Florida Statutes, and the City contributes the required remaining balance, as determined by the actuary. The City recognized these on-behalf payments from the State as revenues and expenditures in the governmental fund financial statements.

The City makes periodic contributions totaling 100% of the actuarially determined amount (after state contributions) annually to the Plan. An actuarial valuation of the Plan is to be completed at least once every two years. Contributions for the fiscal year ended September 30, 2022, were based on actuarial computations performed in 2020, for the actuarial report as of October 1, 2020.

### **Net Pension Liability of the City**

The components of the net pension liability(asset) of the City at September 30, 2022, were as follows:

**CITY OF MARCO ISLAND, FLORIDA**

|   |                |
|---|----------------|
| Total pension liability   | \$ 19,885,123  |
| Plan fiduciary net position   | 22,354,769     |
| City's net pension liability(asset)   | \$ (2,469,646) |
| Plan fiduciary net position as a percentage of<br>the total pension liability | 112.42%        |

The required schedule of changes in the City’s net pension liability(asset) and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of October 1, 2020 with update procedures performed by the actuary to roll forward to the total pension liability measured as of September 30, 2021. The following actuarial assumptions, applied to all periods included in the measurement:

|                           |   |  |
|---------------------------|---|--|
| Inflation                 | 2.30%   |  |
| Salary increases          | Service based table   |  |
| Investment rate of return | 7.0%, net of pension plan investment expense, including inflation |  |

Mortality rates were based on the PubS.H-2010 for Males or Females, as outlined in Milliman’s July 1, 2020 FRS valuation report.

The most recent actuarial experience study used to review all other significant assumptions was dated August 12, 2017.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2022 are: Domestic Equity Securities – 5.86%, International Equity Securities, – 4.70%, Fixed Income Securities – 1.43%, and Real Estate – 4.45%.

Discount rate: The discount rate used to measure the total pension liability was 7 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability (Asset) of the City: The changes in the components of the net pension liability(asset) of the City for the year ended September 30, 2022, were as follows:

**CITY OF MARCO ISLAND, FLORIDA**

|   | Total Pension<br>Liability<br>(a) | Plan Fiduciary<br>Net Position<br>(b) | Net Pension<br>Liability(Asset)<br>(a) - (b) |
|---|-----------------------------------|---------------------------------------|--|
| <b>Balances at 9/30/21</b>                                    | \$ 18,220,382                     | \$ 18,829,257                         | \$ (608,875)                                 |
| <b>Changes for the year:</b>                                  |                                   |                                       |  |
| Service cost  | 567,691                           | -                                     | 567,691                                      |

**(e) The Florida Retirement System Plan, Firefighters**

**General Information about the Florida Retirement System (FRS)**

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services,

## CITY OF MARCO ISLAND, FLORIDA

Division of Retirement, and consists of two cost-sharing multiple-employer defined benefit plans and other nonintegrated programs. An annual comprehensive financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site ([www.dms.myflorida.com](http://www.dms.myflorida.com)).

### **FRS Pension Plan**

*Plan Description.* The Marco Island Independent Fire Protection District provided fire and rescue services to the community prior to incorporation in 1997. Employees hired by the District prior to December 31, 1995, participated in the pension plan provided by the Florida Retirement System (the System). These "old hire" employees were allowed to continue membership in the System both after the incorporation of the City and the establishment of the City of Marco Island Firefighters' Pension Plan (as noted above).

The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. The general classes of membership are as follows:

- ◆ *Special Risk Class* – Members who are employed as law enforcement officers and meet the criteria to qualify for this class.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members classified as special risk, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members classified as special risk enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 60 or any time after 30 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS-participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

*Benefits Provided.* Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the

**CITY OF MARCO ISLAND, FLORIDA**

average final compensation is the average of the 5 highest fiscal years’ earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years’ earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on retirement plan and/or the class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors’ benefits.

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

*Contributions.* The Florida Legislature establishes contribution rates for participating employers and employees.

| <u>Class</u>   | <u>Percent of Gross Salary</u> |                     |
|--|--------------------------------|---------------------|
|  | <u>Employee</u>                | <u>Employer (1)</u> |
| FRS, Special Risk  | 3.00                           | 24.17               |
| Deferred Retirement Option Program - Applicable to Members from All of the Above Classes | N/A                            | 16.68               |
| FRS, Reemployed Retiree  | (2)                            | (2)                 |

Notes: (1) These rates include the normal cost and unfunded actuarial liability contributions but do not include the 1.66 percent contribution for the Retiree Health Insurance Subsidy and the assessment of 0.06 percent for administration of the FRS Investment Plan and retirement and financial planning for members of both plans.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The City’s contributions, including employee contributions, to the defined benefit pension plan totaled \$52,975 for the fiscal year ended June 30, 2022, excluding HIS plan contributions.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.* At September 30, 2022, the City reported a liability of \$561,004 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The City’s proportionate share of the net pension liability was based on the City’s 2021-22 fiscal year contributions relative to the total 2021-22 fiscal year contributions of all participating members. At June 30, 2022, the City’s proportionate share was 0.001507751 percent, which was a decrease of 0.000310690 from its proportionate share measured as of June 30, 2021.

For the fiscal year ended September 30, 2022, the City recognized pension benefit of (\$19,476). In addition, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**CITY OF MARCO ISLAND, FLORIDA**

| <u>Description</u>  | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|---|---|--|
| Differences between expected and actual experience  | \$ 26,644                                 | \$ -                                     |
| Change of assumptions   | 69,090                                    |  |
| Net difference between projected and actual earnings on FRS pension plan investments                          | 37,043                                    | -  |
| Changes in proportion and differences between City FRS contributions and proportionate share of contributions | 44,598                                    | 241,669                                  |
| City FRS contributions subsequent to the measurement date   | 6,079                                     |  |
| <b>Total</b>  | <u>\$ 183,454</u>                         | <u>\$ 241,669</u>                        |

The deferred outflows of resources related to pensions totaling \$6,079 resulting from City contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Fiscal Year Ending September 30</u> | <u>Amount</u>      |
|--|--------------------|
| 2023                                   | \$ (15,549)        |
| 2024                                   | (5,867)            |
| 2025                                   | 5,251              |
| 2026                                   | (45,686)           |
| 2027                                   | (2,443)            |
| Total                                  | <u>\$ (64,294)</u> |

*Actuarial Assumptions.* The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

|                           |   |
|---------------------------|---|
| Inflation                 | 2.40 percent  |
| Salary Increases          | 3.25 percent,   |
| Investment rate of return | 6.70 percent, This is the same as the 6.70 percent used as the discount rate. |

Mortality rates were based on the Pub-2010 with Scale MP-2018.

The actuarial assumptions that determined the total pension liability as of the June 30, 2022, were based on the results of an actuarial experience study for the period July 1, 2014, through June 30, 2018.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

**CITY OF MARCO ISLAND, FLORIDA**

| <u>Asset Class</u>       | <u>Target Allocation<sup>1</sup></u> | <u>Annual Arithmetic Return</u> | <u>Compound Annual (Geometric) Return</u> | <u>Standard Deviation</u> |
|--------------------------|--------------------------------------|---------------------------------|---|---------------------------|
| Cash                     | 1.00%                                | 2.60%                           | 2.60%                                     | 1.10%                     |

| Assumed inflation - Mean |                                      |                                 | 2.40%                                     | 1.30%                     |

*Discount Rate.* The discount rate used to measure the total pension liability was 6.70 percent. The plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

*Sensitivity of the City’s Proportionate Share of the Net Position Liability to Changes in the Discount Rate.* The following presents the City’s proportionate share of the net pension liability calculated using the discount rate of 6.70 percent, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.70 percent) or 1 percentage point higher (7.70 percent) than the current rate:

|   | <u>1% Decrease (5.70%)</u> | <u>Current Discount Rate (6.70%)</u> | <u>1% Increase (7.70%)</u> |
|---|----------------------------|--------------------------------------|----------------------------|
| City’s proportionate share of the net pension liability | \$ 970,219                 | \$ 561,004                           | \$ 218,853                 |

*Pension Plan Fiduciary Net Position.* Detailed information about pension plan’s fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Annual Comprehensive Financial Report.

**HIS Pension Plan**

*Plan Description.* The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

*Benefits Provided.* For the fiscal year ended June 30, 2022, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of creditable service completed at the time of retirement multiplied by \$5. The payments are at least \$30 but not more than \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which can include Medicare.

**CITY OF MARCO ISLAND, FLORIDA**

*Contributions.* The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2022, the contribution rate was 1.66 percent of payroll pursuant to section 112.363, Florida Statutes. The City contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which HIS payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The City’s contributions to the HIS Plan totaled \$5,263 for the fiscal year ended September 30, 2022.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.* At September 30, 2022, the City reported a net pension liability of \$112,086 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The City’s proportionate share of the net pension liability was based on the City’s 2021-22 fiscal year contributions relative to the total 2021-22 fiscal year contributions of all participating members. At June 30, 2022, the City’s proportionate share was 0.00105825 percent, which was an increase of 0.0000218816 from its proportionate share measured as of June 30, 2021.

For the fiscal year ended September 30, 2022, the City recognized pension benefit of (\$18,391). In addition, the City reported deferred outflows and deferred inflows of resources related to pensions from the following sources:

| <u>Description</u>  | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|---|---|--|
| Differences between expected and actual experience  | \$ 3,402                                  | \$ 493                                   |
| Change of assumptions   | 6,425                                     | 17,340                                   |
| Net difference between projected and actual earnings on HIS pension plan investments                              | 162                                       |  |
| Changes in proportion and differences between City HIS contributions and proportionate share of HIS contributions | 7,221                                     | 64,899                                   |
| City contributions subsequent to the measurement date   | 596                                       |  |
| <b>Total</b>  | <u>\$ 17,806</u>                          | <u>\$ 82,732</u>                         |

The deferred outflows of resources totaling \$596 was related to pensions resulting from City contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2023. Other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized in pension expense as follows:

**CITY OF MARCO ISLAND, FLORIDA**

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u>      |
|-----------------------------------|--------------------|
| 2023                              | \$ (15,691)        |
| 2024                              | (8,461)            |
| 2025                              | (3,869)            |
| 2026                              | (8,564)            |
| 2027                              | (19,877)           |
| Thereafter                        | (9,059)            |
| <b>Total</b>                      | <b>\$ (65,521)</b> |

*Actuarial Assumptions.* The total pension liability in the July 1, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

|                     |              |
|---------------------|--------------|
| Inflation           | 2.40 percent |
| Salary Increases    | 3.25 percent |
| Municipal Bond Rate | 3.54 percent |

Mortality rates were based on the Generational Pub-2010 with Scale MP-2018.

The actuarial assumptions that determined the total pension liability as of the June 30, 2022, were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

*Discount Rate.* The discount rate used to measure the total pension liability was 3.54 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

*Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate.* The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 3.54 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.54 percent) or 1 percentage point higher (4.54 percent) than the current rate:

|  | <u>1%<br/>Decrease<br/>(2.54%)</u> | <u>Current<br/>Discount Rate<br/>(3.54%)</u> | <u>1%<br/>Increase<br/>(4.54%)</u> |
|--|------------------------------------|--|------------------------------------|
| City's proportionate share of<br>the net pension liability | \$ 128,236                         | \$ 112,086                                   | \$ 98,723                          |

*Pension Plan Fiduciary Net Position.* Detailed information about pension plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Annual Comprehensive Financial Report.

Applicable totals for all of the City's defined benefit pension plans are reflected below:

**CITY OF MARCO ISLAND, FLORIDA**

|                                | Firefighters'<br>Pension Plan | Police Officers'<br>Pension Plan | FRS<br>Pension | HIS<br>Pension | Total          |
|--------------------------------|-------------------------------|----------------------------------|----------------|----------------|----------------|
| City's net pension (asset)     | \$ (4,758,303)                | (2,469,646)                      | -              | -              | \$ (7,227,949) |
| City's net pension liability   | \$ -                          | -                                | 561,005        | 112,086        | \$ 673,091     |
| Deferred outflows of resources | \$ 2,144,518                  | 1,570,471                        | 183,454        | 17,806         | \$ 3,916,249   |
| Deferred inflows of resources  | \$ (3,820,769)                | (1,579,815)                      | (241,669)      | (82,731)       | \$ (5,724,984) |
| Pension expenditure (income)   | \$ 660,270                    | 189,440                          | (19,476)       | (18,391)       | \$ 811,843     |

**(f) City Employee Pension Plan**

The City is a single employer that contributes to a defined contribution pension plan created in accordance with Internal Revenue Code 401(a). The City of Marco Island’s 401A Plan is available to all employees not covered under the Firefighters’ or Police Officers’ Pension Plans or the Firefighters’ Florida Retirement System. The City has contracted with MassMutual for the plan administration.

For employees hired by the City as part of its acquisition of the water system from Florida Utility, Inc., the City contributes 6.5% of annual covered payroll plus a match up to 4% of any employee’s voluntary contribution. For all other employees, the City contributes 6.5% of annual covered payroll, and employees do not contribute. Employer contributions for fiscal year ended September 30, 2022, was \$701,546. Employee contributions for fiscal year ended September 30, 2022, was \$100,556. Plan provision and contribution requirements are established and may be amended by the City Manager.

**12. Other Post-employment Benefits**

*Plan Description.* The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District that provides OPEB for all employees who satisfy the City’s retirement eligibility provisions. Pursuant to Section 112.0801, Florida Statutes, former employees who retire from the City are eligible to participate in the City’s health and hospitalization plan for medical, prescription drug, dental, and vision coverage. Retirees and their eligible dependents shall be offered the same health and hospitalization insurance coverage as is offered to active employees at a premium cost of no more than the premium cost applicable to active employees. The City subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because retiree healthcare costs are generally greater than active employee healthcare costs. The OPEB Plan contribution requirements and benefit terms of the City and the OPEB Plan members are established and may be amended through recommendations of the Employee Benefits Committee and action from the Council. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75.

*Benefits Provided.* The OPEB Plan provides healthcare benefits for retirees and their dependents. The OPEB Plan only provides an implicit subsidy as described above.

*Employees Covered by Benefit Terms.* At September 30, 2020, the following employees were covered by the benefit terms:

**CITY OF MARCO ISLAND, FLORIDA**

|   |         |
|---|---------|
| Inactive Plan Members or Beneficiaries Currently Receiving Benefits | 3       |
| Inactive Plan Members Entitled to But Not Yet Receiving Benefits    | 0       |
| Active Plan Members   | 210     |
| <br>Total   | <br>213 |

**Total OPEB Liability.** The City’s total OPEB liability of \$1,432,919 was measured as of September 30, 2021 and was determined by an actuarial valuation as September 30, 2020, updated to September 30, 2021, using standard actuarial practices.

**Actuarial Assumptions and Other Inputs.** The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

|                             |  |
|-----------------------------|--|
| Inflation                   | 2.5 percent  |
| Salary Increases            | 6.00 percent, average, including inflation                                     |
| Discount Rate               | 2.43 percent   |
| Healthcare Cost Trend Rates | 7.50 percent, decreasing to an ultimate rate of 4.0 percent for 54 years later |

The discount rate was based on the Bond Buyer General Obligation 20-year Municipal Bond Index. Mortality rates were based on the Pub-2010 mortality tables with fully generational improvement using scale mp-2018. Demographic Assumptions Mortality rates are consistent with mortality rates used for the pension valuations. The mortality rates are mandated by Chapter 2015-157, Florida Statutes for pension plans. This law mandates the use of the assumption used in either of the two most recent valuations of the Florida Retirement System (FRS). The rates are those outlined in Milliman’s July 1, 2019 FRS valuation report. We feel this assumption sufficiently accommodates future mortality improvements. Retirement rates, termination and disability rates are deemed reasonable and will continue to be monitored to ensure they capture plan experience. The participation rate and spousal coverage election percentage are the same as the previous valuation. They are deemed reasonable and will continue to be monitored.

The demographic actuarial assumptions for retirement, disability incidence, and withdrawal used in the July 1, 2019, valuation were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018, adopted by the FRS.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the September 30, 2020, valuation were based on a review of recent plan experience done concurrently with the September 30, 2020, valuation.

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB.**

For the fiscal year ended September 30, 2022, the City recognized OPEB expense of \$73,253, of which \$25,090 pertained to Utility employees and the remaining \$48,163 to all other employees. At September 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

**CITY OF MARCO ISLAND, FLORIDA**

| <u>Description</u>   | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|--|---|--|
| Differences between expected and actual experience               | \$ 2,706                                  | \$ 44,539                                |
| Change of assumptions  | 36,606                                    | 269,035                                  |
| Employer contributions subsequent to the<br>the measurement date | <u>59,961</u>                             | <u>-</u>                                 |
| <b>Total</b>   | <b><u>\$ 99,273</u></b>                   | <b><u>\$ 313,574</u></b>                 |

Of the total amount reported as deferred outflows of resources related to OPEB, \$59,961 resulting from benefits paid subsequent to the measurement date and before the end of the fiscal year will be included as a reduction of the total OPEB liability in the year ended September 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| <u>Fiscal Year Ending September 30</u> | <u>Amount</u>              |
|--|----------------------------|
| 2023                                   | \$ (106,442)               |

Notes to the Schedule

The schedule will present 10 years of information once it is accumulated.

Covered Employee Payroll was projected one year forward from the valuation date for the reporting period ending September 30, 2022.

*Changes of assumptions.* Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period.

The following are the discount rates used in each period:

|  |       |
|--|-------|
| Fiscal Year Ending September 30, 2022: | 2.43% |
| Fiscal Year Ending September 30, 2021: | 2.14% |
| Fiscal Year Ending September 30, 2020: | 3.58% |

Benefit Payments. The plan sponsor did not provide actual net benefits paid by the Plan for the fiscal year ending on September 30, 2022. Expected net benefit payments produced by the valuation model for the same period are shown in the table above.

There are no assets accumulated in a trust that meets the criteria of GASB codification P22.101 or P52.101 to pay related benefits for the OPEB plan.

## CITY OF MARCO ISLAND, FLORIDA

### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

#### NOTE 1 BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets are adopted for the general fund on a basis consistent with accounting principles generally accepted in the United States.

1. Prior to September 1, the City Manager submits to the City Council a budget estimate of the revenues and expenditures for all City departments and divisions for the fiscal year commencing the following October 1.
2. Upon receipt of the annual budget estimates, the City Council holds various budget workshops to review and amend the proposed budget.
3. Public hearings are held to obtain taxpayers' comments.
4. Prior to October 1, the budget is legally enacted through passage of an ordinance.
5. No department may legally expend or contract to expend amounts in excess of amounts appropriated for any department within an individual fund. Budget appropriations lapse at year end; however, the Finance Director, through the City Manager, is authorized to reserve at the beginning of the year the unpaid purchase orders, outstanding contracts, and other commitments from the prior year.
6. The adopted budget may be amended as follows:
  - a. The City Council has authorized the City Manager to amend, modify, or otherwise adjust the operating budget to a maximum limit of \$50,000. The legal level of budgetary control is at the fund level for the general fund. The City Council approves all other budget amendments.
  - b. The City Council approves supplemental appropriations via re-appropriation ordinance which consolidates all budget amendments approved during the course of the fiscal year and those recommended by the City Manager near the end of the fiscal year. There was an increase of \$0.4 million in appropriations in the general fund during the year end September 30, 2022.
7. Encumbrance accounting is used in governmental funds. Encumbered purchase orders outstanding lapse at year-end.

#### NOTE 2 EXCESS EXPENDITURES OVER APPROPRIATION

There was an increase of \$0.4 million in appropriations in the general fund during the year end September 30, 2022, primarily related to increases to the Police and Fire collective bargaining agreements. Historically, the City develops a conservative budget based upon 96.5% of ad valorem taxes, and between 90% and 95% of the State's various state-shared revenue projections due to the uncertainty in the economy. Actual revenue received was \$1.8 million more than budgeted. This was primarily due to an overage in intergovernmental revenues caused by the \$0.9 million of the second tranche of ARP federal funds received. Overall, departmental expenditures were in line with budgeted expenditures, any differences are due to vacancies, retirements, and attrition.

**NONMAJOR GOVERNMENTAL FUNDS**

**Special Revenue Funds**

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Grants Fund accounts for the revenues received from other governmental and private organizations to be used for specific purposes.

Building Services Fund accounts for revenue received from building permits and application fees to be used for the operation of the building department.

## CITY OF MARCO ISLAND, FLORIDA

### FIDUCIARY FUNDS

Fiduciary funds are used to account for the activities of funds held in a trustee or agency capacity for others that cannot be used to support the City's own programs. The City reports pension trust funds which are to account for the activities of the City's retirement systems, which accumulate resources for pension benefit payments made to employees.

**Firefighters' Pension Fund** accounts for the activities of the City's defined benefit retirement plan for all full-time sworn fire personnel.

**Police Officers' pension Fund** accounts for the activities of the City's defined benefit retirement plan for all full-time sworn police personnel.

**Sources:** Debt outstanding data was provided by each governmental unit.

**Notes:** Overlapping governments are those that coincide, at least in part with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Marco Island. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping government.

(1) The City purchased the water and sewer utility operations in November 2003, or fiscal year 2004, from Florida Water Services, Inc. Utility revenue bonds in the amount of \$101 million were issued to finance the acquisition. The sales tax revenue bonds were issued in August 2005 to finance the purchase of Veterans Community Park.

(2) Sewer assessment long-term debt is excluded.

(3) Debt service coverage requirement, with impact fees included in net revenues, is 1.20.

(4) Debt service coverage requirement, with impact fees excluded from net revenues, is 1.10.

(1) Information Technology included in Executive Administration for prior years. Parks maintenance placed under Public Works.

(2) Recreation Enterprise functions were transferred to Park and Recreation in the General Fund.

(3) Fleet and Facilities personnel were transferred from Parks and Public Works to better match employee duties to their true function.

**CITY OF MARCO ISLAND, FLORIDA**

**SINGLE AUDIT AND OTHER REPORTS AND LETTERS**

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

---

City Council and City Manager  
City of Marco Island, Florida

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Marco Island, Florida (the "City"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated April 6, 2023.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purposes of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

*A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.*

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

---

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER, 10.550 RULES OF THE AUDITOR GENERAL**

---

City Council and City Manager  
City of Marco Island, Florida

**Report on Compliance For the Major Federal Program**

***Opinion on the Major Federal Program***

We have audited the City of Marco Island, Florida's (the "City") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City's major federal program for the year ended September 30, 2022. The City's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal program for the year ended September 30, 2022.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of City's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to City's federal programs.

***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

**Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

CITY OF MARCO ISLAND, FLORIDA

---

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S MANAGEMENT LETTER

---

City Council and City Manager  
City of Marco Island, Florida

### Report on the Financial Statements

We have audited the financial statements of the City of Marco Island, Florida (the "City"), as of and for the fiscal year ended September 30, 2022, and have issued our report thereon dated April 6, 2023.

### Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General.

### Other Reports and Schedule

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance Required by the Uniform Guidance; schedule of findings and questioned costs; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated April 6, 2023, should be considered in conjunction with this management letter.

### Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations in the preceding annual financial audit report requiring correction.

### Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City of Marco Island, Florida was incorporated in 1897. Additional information on the City's creation and the City's component unit are disclosed within the City's footnotes.

**Financial Condition and Management**

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

**Special District Component Units**

Section 10.554(1)(i)5.d, Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit, within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

**Additional Matters**

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

**Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the Mayor and Members of the City Council, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Bradenton, Florida

**INDEPENDENT ACCOUNTANT'S REPORT**

---

City Council and City Manager  
City of Marco Island, Florida

We have examined the City of Marco Island, Florida's (the "City") compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2022. Management of the City is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements during the year ended September 30, 2022.

This report is intended solely for the information and use of the City and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.
