Re: 2020 May Monthly City Council Report

As we entered the month of May, the coronavirus (COVID-19) was still at the forefront of the operations of the Marco Island Police Department. We continued to closely monitor the situation within the County, State, the United States and globally by being part of different planning cells and information sharing platforms. We kept personal protective equipment procedures in place to keep the responding officers and the public safe. Under the direction of Governor DeSantis's Executive Orders, Florida moved into full phase 1 of the Safe. Smart. Step-by-Step. Plan for Florida's recovery, which included partnering up with Alcohol Beverage Tobacco (ABT) and Department of Business and Professional Regulations (DBPR). We remain vigilant in working with our community partners to be sure our restaurants, businesses, and beaches stay safe. Throughout the month, we utilized technology to further our quest of bringing the department to full staffing. From last month's interviews, we were able to add two new members to the team.
